Anti Virus Administration and Configuration

INSTRUCTIONS:
Please respond to each question by placing an "X" in the "Yes", "No" or "N/A" column or by providing the information requested. Use the "Tab" key to move between items. Use the "Additional information" field for explanatory comments, if necessary. If an item does not have an "Additional information" field, and you need to explain your answer, use the space at the end of the questionnaire and reference the item being explained, e.g. RE: Item 1.2-This is the explanation.

Questionnaire completed by: | Contact number for follow-up questions: | Date Completed:

1. Policies and Procedures

Number	Question	Yes	No	N/A
1.1	Is there a written anti virus policy for the organization? *If you answered "No" to this question, skip to Section 2, Anti Virus Software* Additional information:	☐	☐	☐
1.2	Are there different anti-virus policies, procedures, or software used in different areas of your network? (for example: you have a different anti-virus policy or procedure or use different software in your branch offices or in the DMZ than you use on the LAN) Additional information:	☐	☐	☐
If policies, procedures or software differ in your network, use the "Additional information" area to explain differences where they exist. **Please provide an electronic copy of all anti virus policies and procedures when you return this questionnaire to the auditors.**				
1.3	Has the current anti virus policy been reviewed and approved by the Board of Directors or by management? *If the format of the antivirus policy does not include an approval page with Board of Director or management signatures, please furnish a copy of the Board minutes in which the Information Security Program was approved.* Additional information:	☐	☐	☐

Number	Question	Yes	No	N/A
1.4	Has the policy been implemented? Additional information:	☐	☐	☐
1.5	Is the anti virus policy reviewed on a regular basis and updated as the environment changes? *Please provide evidence that the policy is regularly updated. This evidence may be in the form of a change or history log for the document or previous versions of the document..* Additional information:	☐	☐	☐
1.5.1	When was the last time the anti virus policy was reviewed or updated?			
1.6	Do anti virus policy and procedures include the following elements:			
1.6.1	Purpose	☐	☐	☐
1.6.2	Scope	☐	☐	☐
1.6.3	Periodic revision requirement	☐	☐	☐
1.6.4	Definitions (If required)	☐	☐	☐
1.6.5	Enforcement provisions	☐	☐	☐
1.6.6	Revision history	☐	☐	☐
1.6.7	The way in which virus server software should be configured	☐	☐	☐
1.6.8	The way in which virus client software should be configured	☐	☐	☐
1.6.9	Virus definition update schedule for stationary clients (desktops and servers)	☐	☐	☐
1.6.10	Virus definition update procedure for mobile (laptop and PDA) clients	☐	☐	☐
1.6.11	The way in which the anti virus engine (software) is updated	☐	☐	☐
1.6.12	A network administrator/help desk response process for virus attacks	☐	☐	☐
1.6.13	Procedures end-users must take when a virus is detected	☐	☐	☐
1.6.14	Education and training of network administrators and help desk personnel	☐	☐	☐
1.6.15	Education and training for end users on how to use the software	☐	☐	☐
1.6.16	A procedure for scanning newly received media, applications, etc prior to their use on the network.	☐	☐	☐
Additional Information for items in Section 1.6:				
1.7	Is the administration, configuration or operation of the anti virus solution outsourced? *If you answered "No" to this question, skip to Section 2, Anti Virus Software.* Additional information:	☐	☐	☐
1.7.1	To which vendor is the anti virus solution outsourced?			

Number	Question	Yes	No	N/A
1.7.2	Does the organization have a Service Level Agreement (SLA) with the outsourced provider? **If you answered "Yes" to this question, please provide copies of all outsourced anti virus provider service level agreements in force to the auditors when you return this questionnaire.** Additional information:	☐	☐	☐
1.7.3	Does the organization have a contract with the outsourced provider? **If you answered "Yes" to this question, please provide copies of all outsourced anti virus provider contracts in force to the auditors when you return this questionnaire.** Additional information:	☐	☐	☐
1.7.4	Has the organization performed a due diligence check on the anti virus vendor? **If you answered "Yes" to this question, please provide electronic copies of all documentation used to perform the due diligence check to the auditors when you return this questionnaire.** Additional information:	☐	☐	☐

2. Anti Virus Software

Number	Question	Yes	No	N/A
2.1	Is anti virus software used by the organization? *If you answered "No" to this question, skip to Section 5, Miscellaneous.*	☐	☐	☐
2.2	Which anti-virus software is used? (If more than one vendor or version is in use, please list all vendors and versions)			
2.3	What is the current version/service pack/patch level of the anti-virus software? (If more than one vendor or version is in use, please list version/service pack/patch level all vendors and versions)			
2.4	Does the anti virus software allow files in use (open files) to be scanned? Additional information:	☐	☐	☐
2.5	Does the anti-virus application allow scanning of email attachments on your mail gateway? Additional information:	☐	☐	☐
2.6	Does the anti virus client allow scanning of email attachments when they are received on the end user's workstation/laptop/PDA? Additional information:	☐	☐	☐

Number	Question	Yes	No	N/A
2.7	Is a copy of the currently installed anti-virus software available on-site, not part of a tape backup? Additional information:	☐	☐	☐
2.8	Is a copy of the currently installed anti virus software stored in a secure location off-site, for use during disaster recovery? Additional information:	☐	☐	☐
2.9	Are all copies of installed anti virus software licensed for use? Additional information:	☐	☐	☐

3. Anti Virus Software Configuration and Operation

Number	Question	Yes	No	N/A
3.1	Is the installation and update of anti-virus client software centrally managed? (Anti virus engine installation and updates are pushed from one or more servers to each client vice each client obtaining engine updates individually) Additional information:	☐	☐	☐
3.2	Is the anti virus definition update process centrally managed? (Updates are pushed from one or more servers to each client vice each client obtaining virus definition updates individually) Additional information:	☐	☐	☐
3.3	Is the anti-virus definition update process manually or automatically initiated? ☐ Manually ☐ Automatically			
3.4	How often are virus definition files updated from the vendor to the central server?			
3.5	How often are virus definition files at the client updated from the central server?			
Please provide an electronic copy of the anti virus server configuration file(s). If your software does not have a configuration export utility, provide electronic copies of screenshots of the configuration dialogs.				
3.6	If the anti virus software is hosted as an application on a server, is the anti-virus server properly secured (NTFS or equivalent partition, restricted management console access, passworded console, etc.) Additional information:	☐	☐	☐
Please provide a DumpSec "Dump Permissions for File system" report for the server on which the anti virus software resides. If you do not have DumpSec, you may download it from: www.somarsoft.com				
3.7	Is "real time" scanning used for all anti virus clients? Additional information:	☐	☐	☐
3.8	How often are full scans of workstation and server local hard drives conducted? Additional information:			

Number	Question	Yes	No	N/A
3.9	How often are full scans of local hard drives performed for mobile devices (laptops and PDAs)? Additional information:			

4. Anti Virus Installations

Number	Question	Yes	No	N/A
4.1	Is an anti-virus client installed on all desktops, servers, mail gateways, laptops, PDAs, etc? Additional information:	☐	☐	☐
4.2	Are there any machines in use that do NOT have an anti-virus client installed? *If you answered "No" to this question, skip to question 4.3.* Additional information:	☐	☐	☐
4.2.1	Is a list of these machines maintained and is it current? Additional information:	☐	☐	☐
4.2.2	Describe how these machines are scanned for viruses:			
4.3	Are virus definitions up-to-date on all desktops, servers, etc.? Date of last update:	☐	☐	☐
4.4	How are mobile user devices (laptops/PDAs) updated?			
4.5	Are there any files or directories that are excluded from scanning? *If you answered "No" to this question, skip to question 4.6.* Additional information:	☐	☐	☐
4.5.1	Is a list of excluded files (by machine) maintained Additional information:	☐	☐	☐
4.5.2	Explain why these files have been excluded from anti virus scanning:			
4.5.3	Explain how excluded files are checked for viruses:			
4.6	Are end users prohibited from uninstalling or disabling anti virus software? Additional information:	☐	☐	☐
4.7	Describe the controls in place to prevent users from uninstalling or disabling anti-virus software:			

Number	Question	Yes	No	N/A
4.8	Are regular reviews conducted of virus scan results? *If you answered "No" to this question, skip to Section 5, Miscellaneous.* Additional information:	☐	☐	☐
4.8.1	How often are reviews conducted?			
4.8.2	Who reviews virus scan results?			

5. Miscellaneous

Number	Question	Yes	No	N/A
5.1	Are users regularly provided with anti-virus awareness training and information? Additional information:	☐	☐	☐
5.2	If the network firewall(s) or router(s) is/are capable of virus scanning, is another av solution also used to preclude a single point of failure? Additional information:	☐	☐	☐

6. Consolidated Request List

Number	Requested Item	Provided	Not Provided	Reason not provided
6.1	Any/All Anti Virus policies and procedures in effect	☐	☐	
6.2	Any/All Service Level Agreements (SLA) for outsourced anti virus solutions	☐	☐	
6.3	Any/All contracts in force for outsourced anti virus solutions	☐	☐	
6.4	Any/All documentation relating to due diligence performed for outsourced anti virus solution providers	☐	☐	
6.4	Any/All anti virus server configuration files. (If the software does not support configuration export in human-readable format, please provide screenshots of the configuration dialogs)	☐	☐	
6.5	DumpSec "Dump Permissions for File system" report for servers on which anti virus server software resides. If you do not have DumpSec, you may download it from: www.somarsoft.com	☐	☐	
6.6	List of machines on which an anti virus client has not been installed and an explanation of why the machine is not protected in the same manner as the remainder of the network	☐	☐	

Number	Requested Item	Provided	Not Provided	Reason not provided
6.7	List of files/folders excluded from anti virus scans (by machine) and an explanation of why these files/folders are not subject to anti virus scanning. Also provide an explanation of how these files/folders are protected from virus threats.	☐	☐	
6.8	Examples of material used to train administrators, help desk personnel and end users in virus awareness training	☐	☐	
6.9	If anti virus scanning is done by other devices on the network (firewalls, routers, etc.) provide configuration files from these devices and date of last virus definition update.	☐	☐	

7. Additional Information for the Auditor on Anti Virus Controls
