Physical Security

INSTRUCTIONS:
Please respond to each question by placing an "X" in the "Yes", "No" or "N/A" column or by providing the information requested. Use the "Tab" key to move between items. Use the "Additional information" field for explanatory comments, if necessary. If an item does not have an "Additional information" field, and you need to explain your answer, use the space at the end of the questionnaire and reference the item being explained, e.g. RE: Item 1.2-This is the explanation.

Questionnaire completed by: _____

Contact number for follow-up questions: _____

Date Completed: _____

1. Policies and Procedures

Number	Question	Yes	No	N/A
1.1	Is there a written and approved physical security policy for the organization? *If you answered "No" to this question, skip to Section 2, Facility Perimeter* Additional information:	☐	☐	☐
1.2	Are there different physical security policies or procedures for different areas of your organization? (for example: you have a different physical security policy or use a different procedure in your branch offices than you use at the Administration facility)? Additional information:	☐	☐	☐
1.3	Is the physical security policy reviewed on a regular basis and updated as required? Additional information:	☐	☐	☐
1.4	**Please provide an electronic copy of your physical security policy(ies) and procedures when you return this questionnaire to the auditors.**			
1.5	Do physical security policy and procedures include the following elements:			
1.5.1	Purpose	☐	☐	☐
1.5.2	Scope	☐	☐	☐
1.5.3	Periodic revision requirement	☐	☐	☐

Number	Question	Yes	No	N/A
1.5.4	Definitions (If required)	☐	☐	☐
1.5.5	Enforcement provisions	☐	☐	☐
1.5.6	Revision history	☐	☐	☐
1.5.7	Facility Perimeter	☐	☐	☐
1.5.8	Security standards for:			
1.5.8.1	Protective Barriers	☐	☐	☐
1.5.8.2	Protective Lighting	☐	☐	☐
1.5.8.3	Parking Areas & Landscaping	☐	☐	☐
1.5.8.4	Entrances and Exits	☐	☐	☐
1.5.8.5	Interior doors, windows and other openings	☐	☐	☐
1.5.8.6	Ceilings, walls, attics, basements, crawl spaces, Air Conditioning/Heating ducts	☐	☐	☐
1.5.8.7	Wiring and Utility closets	☐	☐	☐
1.5.8.8	Public areas	☐	☐	☐
1.5.8.9	Lock & key control	☐	☐	☐
1.5.8.10	Personnel access control	☐	☐	☐
1.5.8.11	Security Forces (Guards)	☐	☐	☐
1.5.8.12	Intrusion Alarms	☐	☐	☐
1.5.8.13	Fire Alarms	☐	☐	☐
1.5.8.14	Fire Suppression	☐	☐	☐
1.5.8.15	CCTV	☐	☐	☐
1.5.8.16	Utilities (Water, Power, etc)	☐	☐	☐
1.5.8.17	Safes & Vaults	☐	☐	☐
1.5.8.18	Communications	☐	☐	☐
1.5.8.19	Property Disposal	☐	☐	☐
1.5.8.20	Mail Handling	☐	☐	☐
1.5.8.21	Record Storage	☐	☐	☐
1.5.8.22	Network equipment	☐	☐	☐
1.5.8.23	Data Operations Center	☐	☐	☐

2. Facility Perimeter		☐ Not Examined		
Number	**Question**	**Yes**	**No**	**N/A**
2.1	**Perimeter Barrier**	☐ Not Inspected		
2.1.1	Is the perimeter of the facility clearly defined by a fence, wall or other physical barrier? Additional information:	☐	☐	☐
2.1.2	Is there a fence or other barrier separating the building from neighboring areas? Additional information:	☐	☐	☐
2.1.3	Does the barrier limit or control vehicle and pedestrian access to the facility? Additional information:	☐	☐	☐
2.1.4	Is the barrier a deterrent to entry? Additional information:	☐	☐	☐
2.1.5	Is the barrier breached by:			
2.1.5.1	Holes	☐	☐	☐
2.1.5.2	Areas where the ground has washed away from the barrier?	☐	☐	☐
2.1.5.3	Streams, gullies, etc that circumvent the barrier?	☐	☐	☐
2.1.5.4	If breaches exits, are they documented and subject to increased surveillance? Additional information:	☐	☐	☐
2.1.5.5	Describe how these areas are protected:			
2.1.5.6	**Please provide an example of the breach documentation. The documentation will be returned when the Auditors finish their field work.**			
2.1.6	Is there an adequate (20 ft min) clear zone around the barrier? Additional information:	☐	☐	☐
2.1.6.1	Is the clear zone obstructed by stored material? Additional information:	☐	☐	☐
2.1.6.2	Are there any trees or shrubbery in the clear zone that would assist in entry/exit or in providing a hiding place? Additional information:	☐	☐	☐
2.1.7	Are there any items stored near the barrier that would assist in entry/exit (poles, etc)? Additional information:	☐	☐	☐
2.1.8	Are "No Trespassing" signs posted at regular intervals along the barrier? Additional information:	☐	☐	☐

2.1.9	Is the entire barrier easily viewed by the guard force or CCTV? Additional information:	☐	☐	☐
2.1.10	Is the barrier inspected regularly? Additional information:	☐	☐	☐
2.1.10.1	How often is the barrier inspected?			
2.1.10.2	Are written reports of the barrier inspection kept? Additional information:	☐	☐	☐
2.1.10.3	Where are the reports kept?			
2.1.10.4	Are inspection reports reviewed? Additional information:	☐	☐	☐
2.1.10.5	How often are barrier inspection reports reviewed?			
2.1.10.6	Who reviews the barrier inspection reports?			
2.1.10.7	**Please provide examples of the barrier inspection reports. They will be returned when the auditors finish their field work.**			
2.1.11	Are vehicles prohibited from parking near the perimeter barrier? Additional information:	☐	☐	☐
2.1.12	Are sensors installed on the perimeter barrier? Additional information:	☐	☐	☐
2.1.12.1	What type of sensors are installed?			
2.1.12.2	When were they last tested?			
2.1.12.3	Are written reports of the sensor tests kept? Additional information:	☐	☐	☐
2.1.12.4	Where are the reports kept?			
2.1.12.5	Are sensor test reports reviewed? Additional information:	☐	☐	☐
2.1.12.6	How often are sensor test reports reviewed?			
2.1.12.7	Who reviews the sensor test reports?			
2.1.12.8	Was corrective action taken on all deficiencies noted? Additional information:	☐	☐	☐
2.1.12.9	**Please provide examples of the sensor test reports. They will be returned when the auditors finish their field**			

	work.			
2.2	**Perimeter Gates and Doors** ☐ **Not Examined**			
2.2.1	**Provide a diagram of all perimeter gates and doors, designating the use of each (including those not used at all). Include gates and doors through perimeter used by employees. If different categories of employees use different gates or doors, designate the category for each. Include those gates and doors used by visitors, private vehicles, delivery and shipment trucks, railroad sidings, those rarely used and those not used at all.**			
2.2.2	**Gates in Use** ☐ **Not Examined**			
2.2.2.1	Do gates have an automatic authentication device (card reader) or are gates manned during periods of use? ☐ Automatic Authentication ☐ Manned ☐ Other (Explain): _____			
2.2.2.2	Are gate areas sufficiently illuminated? Additional information: _____	☐	☐	☐
2.2.2.2.1	Do gate lights illuminate the interior of vehicles? Additional information: _____	☐	☐	☐
2.2.2.3	If gates are manned:			
2.2.2.3.1	Are there at least two means of communication between the gate post and the security operations center? Additional information: _____	☐	☐	☐
2.2.2 .3.1.1	List the two means of communication: _____			
2.2.2.3.2	How many security personnel man each gate in use? _____			
2.2.2.3.3	If the gate in use is single-manned, how does the guard force manage meal and restroom breaks? _____			
2.2.2.4	Does the guard force possess visitor badges for issue?	☐	☐	☐
2.2.2.4.1	Describe how visitor badges are bulk issued to the guard force (inventoried, signed for, inventoried at shift change, etc.): _____			
2.2.2.4.2	How are they secured and tracked at the guard force location? _____			
2.2.2.4.3	Are expected visitors listed in a memo, log or by some other method that is issued to the guard force daily?	☐	☐	☐
2.2.2 .4.3.1	Describe the method used: _____			
2.2.2.4.4	Are expected visitors required to produce positive identification prior to visitor badge issuance?	☐	☐	☐
2.2.2.4.5	Describe the procedure for verifying a visitor's need for access when they are NOT on the expected visitor's list: _____			
2.2.3	**Gates Not in Use** ☐ **Not Examined**			

2.2.3.1	Are gates secured when not in use?	☐	☐	☐
2.2.3.1.1	Are rarely or never used gates equipped with proper locks and seals? Additional information:	☐	☐	☐
2.2.3.1.2	Are chains and locks of adequate construction used to secure gates when not in use? Additional information:	☐	☐	☐
2.2.3.1.3	Are there alarm devices on gates? Additional information:	☐	☐	☐
2.2.3.1.4	Do gates close without leaving a gap? Additional information:	☐	☐	☐
2.2.3.2	Are gates monitored when not in use?	☐	☐	☐
2.2.3.2.1	How are unused gates monitored (CCTV, physical inspection, sensor, etc.):			
2.2.3.2.2	If monitored by physical inspection, how often are the gates inspected?			
2.3	**Perimeter Lighting** ☐ **Not Examined**			
2.3.1	Excluding parking lots, describe the lighting of the perimeter grounds: ☐ Fully Illuminated ☐ Partially Illuminated ☐ Not Illuminated			
2.3.1.1	If lighting description is less than fully illuminated, are critical and vulnerable areas well illuminated? Additional information:	☐	☐	☐
2.3.1.2	If lighting description is less than fully illuminated, is the entire perimeter (particularly entry points) sufficiently lighted to discourage unlawful entry attempts or placement of explosives against the perimeter? Additional information:	☐	☐	☐
2.3.1.3	If lighting description is less than fully illuminated, are public areas sufficiently lighted to discourage attacks against persons or vehicles? Additional information:	☐	☐	☐
2.3.2	Is lighting sufficient for CCTV surveillance, if installed? Additional information:	☐	☐	☐
2.3.3	Does perimeter lighting also cover buildings? Additional information:	☐	☐	☐
2.3.4	What type of lighting is used?			
2.3.5	Are perimeter lights wired in series or parallel? ☐ Series ☐ Parallel	☐	☐	☐

2.3.6	Are fixtures suitable for outdoor use (weather and tamper resistant)? Additional information:	☐	☐	☐
2.3.7	Are all lights working? Additional information:	☐	☐	☐
2.3.8	If lights burn out, do light patterns overlap? Additional information:	☐	☐	☐
2.3.9	Are lights and wiring inspected regularly? Additional information:	☐	☐	☐
2.3.9.1	How often is wiring inspected?			
2.3.9.2	Who inspects the wiring?			
2.3.10	Are adequate supplies on hand for lighting system maintenance (bulbs, fuses, etc)? Additional information:	☐	☐	☐
2.3.11	Do perimeter lights have an auxiliary power source? Additional information:	☐	☐	☐
2.3.11.1	Where is the auxiliary power source located?			
2.3.11.2	Is the auxiliary power source protected from tampering?	☐	☐	☐
2.3.11.3	Describe how the auxiliary power source is protected:			
2.3.11.4	When was the auxiliary power source last tested?			
2.3.12	Are lights on all night?	☐	☐	☐
2.3.13	Are lights controlled automatically or manually? ☐ Automatically ☐ Manually (Skip to section 2.3.13.2)	☐	☐	☐
2.3.13.1	Automatically			
2.3.13 .1.1	How are they controlled (timer, photo-electric sensors, etc.)			
2.3.13 .1.2	If controlled by timers, are timers adjusted to compensate for length of daylight available? Additional information:	☐	☐	☐
2.3.13 .1.3	If controlled by timers, do timers have battery backup to retain settings after a power outage or must they be manually reset? Additional information:	☐	☐	☐
2.3.13.2	Manually			

2.3.13 .2.1	Who is responsible for turning the lights on and off?			
2.3.13 .2.2	If manually controlled, are switches protected from unauthorized access? Additional information:	☐	☐	☐

3. Parking Areas		☐ Not Examined		
Number	**Question**	**Yes**	**No**	**N/A**
3.1	Is there a specific, marked parking area for employees? Additional information:	☐	☐	☐
3.2	Is there a specific, marked parking area for visitors? Additional information:	☐	☐	☐
3.3	Is entry to and from parking areas controlled by a guard, an electrically operated gate or other measure?	☐	☐	☐
3.3.1	Describe entry control method(s) to parking areas:			
3.4	Are employees provided with parking stickers or placards? Additional information:	☐	☐	☐
3.4.1	If yes, how are these stickers or placards issued and controlled?			
3.5	Are parking areas protected by sufficient lighting in all areas? Additional information:	☐	☐	☐
3.6	Are parking lots covered by CCTV? Additional information:	☐	☐	☐
3.6.1	Is lighting sufficient for CCTV surveillance Additional information:	☐	☐	☐
3.7	Are frequent inspections made of parking areas not guarded or under surveillance by CCTV? Additional information:	☐	☐	☐
3.8	Do reserved (or other) parking spaces block access to the facility by fire or other emergency vehicle? Additional information:	☐	☐	☐
3.9	Is there reserved parking for handicap? Additional information:	☐	☐	☐
3.10	Are there other reserved parking spaces?	☐	☐	☐
3.10.1	Who has them and how are they assigned?			
3.11	If the organization uses a parking garage, how is access controlled?			

4. Landscaping		☐ Not Examined		
Number	**Question**	**Yes**	**No**	**N/A**
4.1	Do landscaping features provide places for potential intruders to hide? Additional information: _____	☐	☐	☐
4.2	Are there items such as bricks, stones or wooden fence pickets that could be used by intruders as weapons, missiles or tools? Additional information: _____	☐	☐	☐
4.3	Do trees or shrubbery hide areas from CCTV coverage? Additional information: _____	☐	☐	☐

5. Exterior Building Lighting		☐ Not Examined		
Number	**Question**	**Yes**	**No**	**N/A**
5.1	Describe the lighting of the building exterior: ☐ Fully Illuminated ☐ Partially Illuminated ☐ Not Illuminated	☐	☐	☐
5.2	If lighting description is less than fully illuminated, are critical and vulnerable areas such as entry points, windows, utility entrances, etc sufficiently lighted to discourage unlawful entry attempts or placement of explosives against the building? Additional information: _____	☐	☐	☐
5.3	Is lighting sufficient for CCTV surveillance, if installed? Additional information: _____	☐	☐	☐
5.4	Is building covered by perimeter lighting? Additional information: _____	☐	☐	☐
5.5	What type of lighting is used? _____			
5.6	Are building lights on different circuits? Additional information: _____	☐	☐	☐
5.7	Are building lights wired in series or parallel? ☐ Series ☐ Parallel			
5.8	Are fixtures suitable for outdoor use (weather and tamper resistant)? Additional information: _____	☐	☐	☐

5.9	Are all lights working? Additional information:	☐	☐	☐
5.10	If lights burn out, do light patterns overlap? Additional information:	☐	☐	☐
5.11	Are lights and wiring inspected regularly? Additional information:	☐	☐	☐
5.11.1	How often is wiring inspected?			
5.11.2	Who inspects the wiring?			
5.12	Are adequate supplies on hand for lighting system maintenance (bulbs, fuses, etc)? Additional information:	☐	☐	☐
5.13	Do exterior lights have an auxiliary power source? Additional information:	☐	☐	☐
5.13.1	If yes, when was the last test?			
5.14	Are lights on all night?	☐	☐	☐
5.15	Are lights controlled automatically or manually? ☐ Automatically ☐ Manually	☐	☐	☐
5.15.1	Automatically	☐	☐	☐
5.15.1.1	How are they controlled (timer, photo-electric sensors, etc.) Additional Information:	☐	☐	☐
5.15.1.2	If controlled by timers, are timers adjusted to compensate for length of daylight available? Additional information:	☐	☐	☐
5.15.1.3	If controlled by timers, do timers have battery backup to retain settings after a power outage or must they be manually reset? Additional information:	☐	☐	☐
5.15.2	Manually	☐	☐	☐
5.15.2.1	Is someone responsible for turning lights on and off? Additional information:	☐	☐	☐
5.15.2.2	If manually controlled, are light switches protected from unauthorized access? Additional information:	☐	☐	☐

6. Exterior Doors & Locks			Not Examined	
Number	**Question**	**Yes**	**No**	**N/A**
6.1	Are all exterior doors at least 1 ¾-inch solid core wood, metal clad or metal? Additional information:	☐	☐	☐
6.2	Are exterior doors composed of material of sufficient strength to resist entry attempts? Additional information:	☐	☐	☐
6.3	Are all hinge pins internally located, welded or otherwise treated to prevent easy removal? Additional information:	☐	☐	☐
6.4	Are exterior door frames built so that the door cannot be forced by spreading the frame? Additional information:	☐	☐	☐
6.5	Are all exterior doors properly equipped with double cylinder locks, astragals, deadbolts or quality padlocks and hasps? Additional information:	☐	☐	☐
6.6	Are exterior locks firmly mounted so that they cannot be pried off? Additional information:	☐	☐	☐
6.7	Are exterior door bolts protected or constructed so that they cannot be cut? Additional information:	☐	☐	☐
6.8	Are exterior padlock hasps installed so that the screws cannot be removed? Additional information:	☐	☐	☐
6.9	Are exterior door padlock hasps made with a grade of steel that is difficult to cut? Additional information:	☐	☐	☐
6.10	Are exterior padlocks in place when doors are unlocked? Additional information:	☐	☐	☐
6.11	Are all exterior doors equipped with intrusion alarms? Additional information:	☐	☐	☐
6.12	Are exit alarms used on perimeter fire doors or other doors which are not available for general use? Additional information:	☐	☐	☐
6.12.1	Do they provide a local signal, signal at the guard office or monitoring station, or both?			
6.13	Are doors with panic, or emergency hardware also fitted with anti-intrusion bars? Additional information:	☐	☐	☐
6.14	Do doors with panic hardware have auxiliary locks for use when the building is not occupied?	☐	☐	☐

	Additional information:			
6.15	Are all unused doors permanently locked? Additional information:	☐	☐	☐
6.16	Is the number of entrance doors in use reduced to the minimum necessary? Additional information:	☐	☐	☐
6.17	Are entrance doors covered by CCTV? Additional information:	☐	☐	☐
6.18	What type of locking device(s) protect(s) entrances? ☐ Automatic Authentication Device ☐ Manned ☐ Keypad locks ☐ Other (Describe below) Additional information:			
6.19	If keypad locks are in use, are the keypads protected from casual observation of entered codes? Additional information:	☐	☐	☐
6.20	If entrances are manned, are there at least two means of communication between the entrance and the security operations center? Additional information:	☐	☐	☐

7. Other Openings		☐ Not Examined		
Number	**Question**	**Yes**	**No**	**N/A**
7.1	Are service & utility openings to the building (e.g., tunnels, utility and sewer manholes, culverts and service ports) properly secured? Additional information:	☐	☐	☐
7.2	Is the roof accessible by means of: ☐ Fire Escape ☐ Another Building ☐ Pole or tree ☐ Other (Specify):	☐	☐	☐
7.3	Is internal access to the roof controlled? Additional information:	☐	☐	☐
7.4	Are openings to the roof from the building interior (doors, skylights, etc) securely fastened for locked from the inside? Additional information:	☐	☐	☐
7.5	Do roof openings have intrusion alarms? Additional information:	☐	☐	☐
7.7	Are there any ladders (permanent or nonpermanent) that should be removed, secured or blocked from unauthorized use?	☐	☐	☐

	Additional information:			

8. Building Interior				☐ Not Examined
Number	**Question**	**Yes**	**No**	**N/A**
8.1	**Doors**			☐ Not Examined
8.1.1	What type of security locks are used?			
8.1.2	Are hinges and lock hasps installed securely?	☐	☐	☐
8.1.3	If cipher locks are used, are they protected from shoulder surfing of entry codes?	☐	☐	☐
8.1.4	Are doors locked or barred during non-working hours?	☐	☐	☐
8.1.5	Who is responsible for making sure doors are secured?			
8.1.6	Are all hinge pins internally located, welded or otherwise treated to prevent easy removal?	☐	☐	☐
8.1.7	Are doors with panic, or emergency hardware also fitted with anti-intrusion bars?	☐	☐	☐
8.1.8	Do doors with panic locks have auxiliary locks for use when the building is not occupied?	☐	☐	☐
8.1.9	Are all unused doors permanently locked?	☐	☐	☐
8.2	**Windows**			☐ Not Examined
8.2.1	Are windows that could be used for entry protected with: ☐ Locking Devices ☐ Metal Bars ☐ Mesh ☐ Intrusion alarms/Glass Break sensors ☐ Other (Specify):			
8.2.2	Are window bars and mesh (if used) securely fastened from the inside or protected with locks to prevent easy removal? Additional information:	☐	☐	☐
8.2.3	Are windows on the ground floor made of tempered glass, ballistic plastic or otherwise hardened? Additional information:	☐	☐	☐
8.2.4	Are all windows that are not used permanently closed? Additional information:	☐	☐	☐
8.2.5	If windows can be opened and are locked, are they protected by ordinary windows lever locks or key locks? Additional information:	☐	☐	☐
8.2.6	Is the general security of windows facing on the perimeter adequate? Additional information:	☐	☐	☐
8.3	**Ceilings, Walls & Raised Floors**			☐ Not Examined

8.3.1	Are drop or removable ceilings used in the facility? Additional information:	☐	☐	☐
8.3.2	Where are the false ceilings and how are they protected (wire mesh to the true ceiling, etc)?			
8.3.3	Are fire/smoke/intrusion detection mechanisms installed in the area above drop ceilings? Additional information:	☐	☐	☐
8.3.4	Do all walls extend to the true ceiling? Additional information:	☐	☐	☐
8.3.5	Is raised flooring used in the facility? Additional information:	☐	☐	☐
8.3.6	Where are the raised floors and how are they protected?	☐	☐	☐
8.3.7	Are fire/smoke/intrusion detection mechanisms installed in the area below raised floors? Additional information:	☐	☐	☐
8.4	**Wiring & Utility Closets**	☐ **Not Examined**		
8.4.1	Are wiring and utility closets kept locked, except for when access is required? Additional information:	☐	☐	☐
8.4.2	Are wiring and utility closets regularly inspected for foreign objects and equipment? Additional information:	☐	☐	☐
8.4.3	Are service engineers, contractors, etc. kept under visual observation at all times when working in wiring and maintenance closets? Additional information:	☐	☐	☐
8.5	**Attic, Basement, Crawl Spaces, Air Conditioning & Heating Ducts**	☐ **Not Examined**		
8.5.1	Are doors to basements, utility rooms, boiler rooms, crawl spaces and attics locked when not in use? Additional information:	☐	☐	☐
8.5.2	Do doors to basements, utility rooms, boiler rooms, crawl spaces and attics have intrusion alarms? Additional information:	☐	☐	☐
8.5.3	Are fire detection mechanisms installed in air conditioning and ventilation ducts? Additional information:	☐	☐	☐
8.5.4	Are air conditioning and heating vent ducts in public areas secure from tampering or introduction of chemical or biological agents into the air systems? Additional information:	☐	☐	☐

8.6	Public Areas	☐ Not Examined		
8.6.1	Are public areas routinely searched? Additional information:	☐	☐	☐
8.6.2	Are public areas next to sensitive areas? Additional information:	☐	☐	☐
8.6.3	Are drop or removable ceilings used in public areas?	☐	☐	☐
8.6.4	Are public restrooms routinely searched?	☐	☐	☐
8.6.5	Are public restrooms next to sensitive areas?	☐	☐	☐
8.6.6	Are drop or removable ceilings used in public rest rooms?	☐	☐	☐
8.6.7	Do trash receptacles in public areas allow easy concealment of dangerous items?	☐	☐	☐
8.6.8	Are directions (directories and floor plans, if appropriate) clearly posted in all public areas?	☐	☐	☐
8.7	**Interior Sensors**	☐ Not Examined		
8.7.1	Are interior sensors used? Additional information:	☐	☐	☐
8.7.2	What type of sensors are used?			
8.7.3	When were they last tested?			
8.7.4	Are there any areas where sensor coverage is not used?	☐	☐	☐
8.7.4.1	How are these areas protected?			
		☐	☐	☐

9. Lock and Key Control		☐ Not Examined		
Number	**Question**	**Yes**	**No**	**N/A**
9.1	**Lock Control (Perimeter and Interior)**	☐ Not Examined		
9.1.1	What types of security locks are used and where?			
9.1.2	If cipher or combination locks are used, are they protected from shoulder surfing of entry codes? Additional information:	☐	☐	☐
9.1.3	If cipher or combination locks are used, have default combinations been changed (2-4-3)? Additional information:	☐	☐	☐
9.1.4	If cipher or combination locks are used, how often are combinations changed?			
9.1.5	If cipher or combination locks are used, how are combinations protected?			
9.1.6	If tumbler locks are used, are cylinders removable? Additional information:	☐	☐	☐
9.1.7	If tumbler locks are used, are locks changed when security may be compromised? Additional information:	☐	☐	☐
9.1.8	If tumbler locks are used, when were locks last changed/rotated?			
9.1.9	If tumbler locks are used, are all lock numbers recorded? Additional information:	☐	☐	☐
9.2	**Key Control (Perimeter and Interior)**	☐ Not Examined		
9.2.1	Is there a written and approved key control policy?	☐	☐	☐
9.2.1.1	**Please include an electronic copy of the key control policy with this questionnaire when it is returned to the auditors.**			
9.2.2	Who is responsible for key control?			
9.2.3	Are door locks and padlocks separate systems? Additional information:	☐	☐	☐
9.2.4	Are building entrance keys issued on a limited basis? Additional information:	☐	☐	☐
9.2.5	Are master keys kept securely locked and issued on a strictly controlled basis? Additional information:	☐	☐	☐
9.2.6	Are keys identified by other than imprinted key numbers? Additional information:	☐	☐	☐

9.2.7	Can the key control officer replace locks and keys their discretion? Additional information:	☐	☐	☐
9.2.8	Must duplication of keys be approved by the key control officer? Additional information:	☐	☐	☐
9.2.9	Are keys signed for by the recipient when they are received? Additional information:	☐	☐	☐
9.2.10	Is a reconciliation of keys issued with keys on hand performed on a regular basis? Additional information:	☐	☐	☐
9.2.10.1	When was the last key reconciliation performed?			
9.2.10.2	Were there any discrepancies?	☐	☐	☐
9.2.10.3	Were discrepancies reconciled? Additional information:	☐	☐	☐
9.2.11	Describe the process for recovering issued keys when employees are terminated or transferred:	☐	☐	☐

10. Access Control		☐ Not Examined		
Number	**Question**	**Yes**	**No**	**N/A**
10.1	**General**	☐ Not Examined		
10.1.1	If the facility is not operational 24 hrs:			
10.1.1.1	Who opens the facility?			
10.1.1.2	Is there an opening security checklist? Additional information:	☐	☐	☐
10.1.1.3	Who closes the facility?			
10.1.1.4	Is there a closing security checklist? Additional information:	☐	☐	☐
10.2	**Ingress & Egress Points**	☐ Not Examined		
10.2.1	Are there multiple ingress/egress control points? Additional information:	☐	☐	☐
10.2.2	Are all ingress/egress points under observation (either by a guard, receptionist or CCTV)? Additional information:	☐	☐	☐
10.2.3	Is employee ingress/egress restricted to controlled entrances and exits? Additional information:	☐	☐	☐

10.2.4	Is visitor ingress/egress restricted to controlled entrances and exits? Additional information:	☐	☐	☐
10.3	**Employee Identification Systems**	☐ Not Examined		
10.3.1	Is there an employee identification system in place? Additional information:	☐	☐	☐
10.3.2	Are there different levels of access for employees? Additional information:	☐	☐	☐
10.3.3	Do all employees have badges? Additional information:	☐	☐	☐
10.3.4	Do employee badges have the employee's picture on them? Additional information:	☐	☐	☐
10.3.5	Are employees required to wear badges at all times while in the facility? Additional information:	☐	☐	☐
10.3.6	Do employee badges expire? Additional information:	☐	☐	☐
10.3.7	Are employees required to sign in and out of the facility? Additional information:	☐	☐	☐
10.3.8	Is there a property pass system in place for employees? Additional information:	☐	☐	☐
10.4	**Non-Employee Identification Systems**	☐ Not Examined		
10.4.1	**General**	☐ Not Examined		
10.4.1.1	Is there an identification system for non-employees? Additional information:	☐	☐	☐
10.4.1.2	Is there a single ingress/egress point used for all non-employees (including vendors, repairpersons, auditors, etc.)? Additional information:	☐	☐	☐
10.4.1.3	Are there different procedures for repeat non-employees (snack machines drivers, etc.) than for occasional non-employees (service repair personnel) Additional information:	☐	☐	☐
10.4.1.4	Are non-employees required to produce proof of identity before being issued a temporary badge? Additional information:	☐	☐	☐

10.4.1.5	Are non-employees required to sign in and out of the facility? Additional information:	☐	☐	☐
10.4.1.6	Are non-employees escorted and under direct observation at all times while in the facility? Additional information:	☐	☐	☐
10.4.1.7	Are non-employees required to wear a badge at all times while in the facility Additional information:	☐	☐	☐
10.4.1.8	Are there different levels of access for non-employees? Additional information:	☐	☐	☐
10.4.1.9	Are non-employee badges visually distinct from employee badges? Additional information:	☐	☐	☐
10.4.1.10	Is there a property pass system in place for non-employees? Additional information:	☐	☐	☐
10.4.1.11	Are there different levels of access for non-employees? Additional information:	☐	☐	☐
10.4.1.12	Do non-employee badges expire? Additional information:	☐	☐	☐
10.4.1.13	Is the reason for a non-employee's visit confirmed before they are issued temporary badges? Additional information:	☐	☐	☐
10.4.2	**Janitorial Service**			☐ **Not Examined**
10.4.2.1	Are janitorial services performed by outside contractors or by organization employees? ☐ Outside Contractors ☐ Organization Employees Additional information:			
10.4.2.2	Is there an identification system for janitorial personnel? Additional information:	☐	☐	☐
10.4.2.3	Are janitorial personnel required to sign in and out of the facility? Additional information:	☐	☐	☐
10.4.2.4	Are janitorial personnel issued badges? Additional information:	☐	☐	☐
10.4.2.5.1	Describe how badges are issued to janitorial personnel:			

10.4.2.5.2	If janitorial personnel are not issued badges, describe how their activities (time in/out, areas accessed, etc.) are tracked:			
10.4.2.6	Is there a current list of janitorial personnel? Additional information:	☐	☐	☐
10.4.2.6.1	Is the organization notified of changes in janitorial personnel? Additional information:	☐	☐	☐
10.4.2.7	Are janitorial personnel escorted by an employee? Additional information:	☐	☐	☐
10.4.2.8	Is the janitorial service bonded and insured? Additional information:	☐	☐	☐
10.4.2.9	Are janitorial vehicles inspected? Additional information:	☐	☐	☐
10.5	**Card Access Control Systems**			☐ **Not Examined**
10.5.1	What type of card access system is used?			
10.5.2	Who administers the card access system?			
10.5.3	Who activates the cards within the software?			
10.5.4	Who issues and retrieves cards?			
10.5.5	Are different personnel responsible for card issue and card access? Additional information:	☐	☐	☐
10.5.6	List all personnel who have access to card access management software:			
10.5.7	Are newly purchased cards inventoried upon receipt? Additional information:	☐	☐	☐
10.5.8	Are unissued cards kept in a secure location? Additional information:	☐	☐	☐
10.5.9	Are unissued cards periodically inventoried to ensure complete accountability? Additional information:	☐	☐	☐
10.5.10	Are issued and unissued cards periodically reconciled to ensure complete accountability? Additional information:	☐	☐	☐
10.5.11	When was the last access card audit performed?	☐	☐	☐
10.5.12	Are unannounced "show down" inventories conducted to ensure employees possess the badge they were issued?	☐	☐	☐

	Additional information:			
10.5.13	Is the access card system capable of generating reports detailing which badge entered/exited which entrance at what time: Additional information:	☐	☐	☐
10.5.14	Who reviews the report? Additional information:	☐	☐	☐
10.5.15	How often is it reviewed? Additional information:	☐	☐	☐
10.6	**Guard Force**	☐ **Not Examined**		
10.6.1	Does the organization use security forces (guards, police or troopers)? Additional information:	☐	☐	☐
10.6.2	Is the guard force contract or proprietary? ☐ Contract ☐ Proprietary ☐ Other (Specify):			
10.6.3	Are there post orders or an operations manual for the guard force specifying their duties? Additional information:	☐	☐	☐
10.6.4	Describe the duties of the guard force:			
10.6.5	What are the guard force's duty days and hours?			
10.6.6	Are clock stations used? Additional information:	☐	☐	☐
10.6.6.1	How many clock stations exist and what are their locations?			
10.6.6.2	Are clock charts reviewed daily? Additional information:	☐	☐	☐
10.6.6.3	Who reviews the clock charts?			
10.6.7	Are activity reports prepared by the guard force for each shift? Additional information:	☐	☐	☐
10.6.7.1	How often are the activity reports reviewed?			
10.6.7.2	Who reviews the guard shift reports?			
10.6.8	Does the guard force possess keys to gates or buildings? Additional information:	☐	☐	☐
10.6.8.1	How is key control for security force keys maintained during shift changes?			
10.6.9	Is the security force armed?	☐	☐	☐

	Additional information:			
10.6.9.1	Has the security force received weapons training? Additional information:	☐	☐	☐
10.6.9.2	How often does the guard force receive refresher weapons training?			
10.6.9.3	Who provides weapons training for the guard force?			
10.6.9.4	Does guard force training include the use of Deadly Force? Additional information:	☐	☐	☐
10.6.10	Does the guard force take periodic polygraph examinations? Additional information:	☐	☐	☐
10.6.10.1	How often are polygraph tests administered?			
10.6.10.2	Who administers the polygraph examinations?			
10.6.11	Is there a communication system in effect for the guard force? Additional information:	☐	☐	☐
10.6.11.1	What type of communication system is in effect?			
10.6.12	Is the guard force required to pass CPR tests? Additional information:	☐	☐	☐
10.6.12.1	Have all members of the guard force passed, and are current in, CPR certification? Additional information:	☐	☐	☐
10.6.13	Is the guard force required to pass a Physical Fitness Test? Additional information:	☐	☐	☐
10.6.13.1	Have all members of the guard force passed the most recent Physical Fitness test? Additional information:	☐	☐	☐
10.7	**Intrusion Alarm Protection**			☐ **Not Examined**
10.7.1	Are intrusion alarms in use? *If you answered "No" to this question, skip to Section 10.8, Fire Alarms & Suppression.* Additional information:	☐	☐	☐
10.7.2	Where is the monitoring center located?			
10.7.3	Is there an alarm response list for the credit union? Additional information:	☐	☐	☐
10.7.3.1	When was the list last updated/audited?			

10.7.4	What hours of operation does the alarm company have on file?			
10.7.5	Does the alarm company provide opening and closing reports? Additional information:	☐	☐	☐
10.7.5.1	Who reviews these reports for discrepancies?			
10.7.6	Have employees with access to the alarm system left the company? Additional information:	☐	☐	☐
10.7.6.1	Was their alarm access code revoked by the alarm company? Additional information:	☐	☐	☐
10.7.6.2	If not, when were the locks/access codes changed? Additional information:			
10.7.7	Which employees are allowed to turn off the system?			
10.7.8	Is the system regularly tested? Additional information:	☐	☐	☐
10.7.8.1	When was the last test?			
10.7.9	Is the system covered by a service and maintenance agreement? Additional information:	☐	☐	☐
10.7.9.1	When does the service agreement expire/renew?			
10.7.10	Where does the alarm system terminate (Sheriff's department, commercial control station, etc)?			
10.7.11	Is there an emergency power source for all alarms? Additional information:	☐	☐	☐
10.7.11.1	If emergency power source is battery, are batteries checked periodically for sufficient charge? Additional information:	☐	☐	☐
10.7.12	Does power source cut in automatically? Additional information:	☐	☐	☐
10.7.13	Are records maintained of all alarm signals (time, date, location, cause, action taken? Additional information:	☐	☐	☐
10.7.13.1	Do records show a pattern? Additional information:	☐	☐	☐
10.7.13.2	Who keeps these records?			
10.7.13.3	How often are they reviewed?			

10.7.14	What is the expected response time?			
10.7.15	Where is the alarm panel located?			
10.7.15.1	Is the alarm panel behind a locked door? Additional information:	☐	☐	☐
10.7.15.2	Is the panel protected from view by casual observers (shoulder surfing)? Additional information:	☐	☐	☐
10.7.15.3	Are wires leading to the control panel protected (in conduit)? Additional information:	☐	☐	☐
10.7.16	If perimeter alarms are used, does alarm continue if door or window is restored to original position?	☐	☐	☐
10.7.17	Are duress alarms used? Additional information:	☐	☐	☐
10.7.18	Is there a schedule of protection on file with the building manager? Additional information:	☐	☐	☐

11. Fire Detection, Suppression and Prevention				☐ Not Examined
Number	**Question**	**Yes**	**No**	**N/A**
11.1	**Fire Detection**			☐ Not Examined
11.1.1	Is there a fire detection system? Additional information:	☐	☐	☐
11.1.2	Are there different fire detection systems (types) for different areas of the organization. Additional information:	☐	☐	☐
11.1.3	Is this a coded system that can designate from which area the alarm came? Additional information:	☐	☐	☐
11.1.4	What type(s) of fire detection mechanisms are used? ☐ Flame Activated ☐ Heat Activated ☐ Smoke Activated ☐ Other (Specify):			
11.1.4.1	If smoke activated fire detection mechanisms are used, are they equipped with an auxiliary power supply in the event AC power is unavailable? Additional information:	☐	☐	☐
11.1.5	Are fire detection mechanisms installed above raised ceilings and below raised floors? Additional information:	☐	☐	☐
11.1.6	Are fire detection mechanisms installed inside HVAC ducts?	☐	☐	☐

	Additional information:			
11.1.7	Are fire detection mechanisms integrated with a fire alarm system? Additional information:	☐	☐	☐
11.1.8	Are fire detection mechanisms integrated with HVAC such that a detected fire shuts down the HVAC to limit oxygen to the fire and prevent smoke spread? Additional information:	☐	☐	☐
11.1.9	Where do fire alarms enunciate: ☐ Locally ☐ Central Monitoring Station ☐ Local Fire Station ☐ Other (Explain):			
11.1.10	If alarms enunciate other than locally, does the alarm system have a cellular or land line communication backup? Additional information:	☐	☐	☐
11.1.11	Does the alarm system have a backup power supply? Additional information:	☐	☐	☐
11.111.1	How long will the backup power supply last? Additional information:			
11.1.12	Are alarms loud enough and located to alert all occupants of the building? Additional information:	☐	☐	☐
11.1.13	Are there manual fire-alarm pull boxes located strategically on each floor? Additional information:	☐	☐	☐
11.1.14	Are fire detection mechanisms tested regularly? Additional information:	☐	☐	☐
11.1.14.1	When were fire detection mechanisms last tested?			
11.2	**Fire Suppression**			☐ **Not Examined**
11.2.1	**General**			☐ **Not Examined**
11.2.1.1	Is there a fire suppression system? Additional information:	☐	☐	☐
11.2.1.2	Are there different fire suppression systems (types) for different areas of the organization. Additional information:	☐	☐	☐
11.2.1.3	What type(s) of fire suppression systems are used? ☐ Gas (FM-200, etc.) ☐ Water Sprinklers ☐ Fire Extinguishers ☐ Other (Specify):			
11.2.1.4	Are there any areas of the organization that are NOT protected by a fire suppression system?	☐	☐	☐

	Additional information:			
11.2.1.5	Are these areas protected by fire extinguishers? Additional information:	☐	☐	☐
11.2.2	**Gas Suppression Systems**	☐ **Not Examined**		
11.2.2.1	What type of gas is used?			
11.2.2.2	Is the area protected by gas suppression sealed off from the rest of the facility to avoid dispersing of gas outside the protected area? Additional information:	☐	☐	☐
11.2.2.3	Can the system be initiated both manually and automatically? Additional information:	☐	☐	☐
11.2.2.4	Is the manual system activation control located near an exit from the protected area? Additional information:	☐	☐	☐
11.2.2.5	Does a local alarm announce the initiation of the system? Additional information:	☐	☐	☐
11.2.2.6	What is the delay period between initiation and activation?			
11.2.2.7	Is there a manual override for automatic initiations? Additional information:	☐	☐	☐
11.2.2.8	Is the system under a maintenance/service contract? Additional information:	☐	☐	☐
11.2.2.9	How often is the system serviced? Additional information:			
11.2.2.10	When was the system last serviced?			
11.2.3	**Water Sprinkler Suppression Systems**	☐ **Not Examined**		
11.2.1.1	Are there different types of water sprinkler fire suppression systems for different areas of the organization. Additional information:	☐	☐	☐
11.2.3.2	What type(s) of water sprinkler suppression systems are used? ☐ Wet Pipe ☐ Dry Pipe ☐ Preaction ☐ Deluge ☐ Other (Specify):			
11.2.3.3	Is each floor/area of the building equipped with one or more fire hoses in wall cabinets or racks? Additional information:	☐	☐	☐
11.2.3.4	Are hose lines connected to those risers used for the sprinkler system?	☐	☐	☐

	Additional information: _____			
11.2.3.5	Is fire hose and play pipe tested regularly to ensure that it is not rotted, cut or obstructed? Additional information: _____	☐	☐	☐
11.2.3.6	Are fire-hose valves at each hose station tested regularly? Additional information: _____	☐	☐	☐
11.2.3.7	Is the water pressure in risers on all floors sufficient to handle both sprinklers and hoses? Additional information: _____	☐	☐	☐
11.2.3.8	If not, is building equipped with fire pumps to keep pressure in these lines high enough to be effective? Additional information: _____	☐	☐	☐
11.2.3.8.1	Where are pumps located? _____			
11.2.3.8.2	Who is responsible for the pumps? _____			
11.2.3.8.3	How often are the pumps tested? _____			
11.2.3.9	Does the system allow for a delay before activating? Additional information: _____	☐	☐	☐
11.2.3.10	Does the system allow for manual override of activation? Additional information: _____	☐	☐	☐
11.2.4	**Fire Extinguishers**	☐ **Not Examined**		
11.2.4.1	Is each floor of the building equipped with a number of strategically placed fire extinguishers?	☐	☐	☐
11.2.4.2	Are fire extinguishers placed within 50 ft of any area?	☐	☐	☐
11.2.4.3	Are these extinguishers regularly inspected or conditioned?	☐	☐	☐
11.2.4.4	Are the extinguishers the correct type for the area they protect?	☐	☐	☐
11.2.4.5	When was the last time the fire extinguishers were inspected?	☐	☐	☐
11.3	**Fire Prevention**	☐ **Not Examined**		
11.3.1	**General**	☐ **Not Examined**		
11.3.1.1	Does the fire marshal routinely inspect the facility? Additional information: _____	☐	☐	☐
11.3.1.2	When was the facility last inspected? _____			
11.3.1.3	Is a record of inspection maintained?	☐	☐	☐

	Additional information:			
11.3.1 .3.1	**Please include a copy of the last Fire Marshall's inspection when returning this questionnaire. The report will be returned to you when the Auditors finish their field work.**			
11.3.1.4	Did the fire marshal approve the building? If not, why not?			
11.3.1.5	Does the building comply with local fire codes? Additional information:	☐	☐	☐
11.3.1.6	How many public fire hydrants are available within a city block in any direction from the building?			
11.3.1.7	How many fire department hookups are there on the outside of the building?			
11.3.1.8	Are fire extinguisher and hose locations properly marked so that they can be easily located by tenants during a fire? Additional information:	☐	☐	☐
11.3.1.9	Are clear and concise instructions posted for use of fire extinguishers and hoses? Additional information:	☐	☐	☐
11.3.1.10	Are trash containers in service hallways, closets and maintenance areas properly covered and of metal construction? Additional information:	☐	☐	☐
11.3.1.11	Are the boiler room and other maintenance areas properly policed? Additional information:	☐	☐	☐
11.3.1.12	Is all combustible trash either removed immediately or safely stored to avoid fires? Additional information:	☐	☐	☐
11.3.1.13	Are combustibles, such as paint, oil, gasoline, etc stored in the building? Additional information:	☐	☐	☐
11.3.2	**Building Construction**			☐ **Not Examined**
11.3.2.1	Are there any fire walls dividing floors of the building? Additional information:	☐	☐	☐
11.3.2.2	Are openings between protected by fire doors? Additional information:	☐	☐	☐
11.3.2.4	Are fire doors normally opened or closed? ☐ Open ☐ Closed			
11.3.2 .4.1	If open, are they equipped with automatic closures (magnetic releases) which would activate if a fire occurred? Additional information:	☐	☐	☐
11.3.2.6	Do fire doors default to fail-safe or fail-open?			

	☐ Fail-safe (locked) ☐ Fail-open (Unlocked)			
11.3.2.7	Is building equipped with fire escapes or fire stairwells? Additional information:	☐	☐	☐
11.3.2.8	If fire stairwells are used, are they equipped with fans to bring air from outside to build up positive pressure and prevent smoke from seeping into them during fires? Additional information:	☐	☐	☐
11.3.2.9	Are fire stairwells compartmentalized to protect against smoke seepage? Additional information:	☐	☐	☐
11.3.2.10	Are fire doors to fire stairwells make of fire-resistant or fireproof material? Additional information:	☐	☐	☐
11.3.2.11	Are these doors equipped with approved panic hardware? Additional information:	☐	☐	☐
11.3.2.12	Are these doors kept closed at all times? Additional information:	☐	☐	☐
11.3.2.13	If kept open, are doors equipped with magnetic or other closures which will operate if a fire occurs? Additional information:	☐	☐	☐
11.3.2.14	Does each floor of the building form a compartment which would effectively block a fire from spreading to other floors? Additional information:	☐	☐	☐
11.3.2.15	Are air conditioning and ventilating flues equipped with dampers which would automatically close in care of fire? Additional information:	☐	☐	☐
11.3.2.16	Are these dampers regularly maintained and tested? Additional information:	☐	☐	☐
11.3.2.17	Are openings where water pipes, etc pass through solid walls sealed to eliminate smoke seepage from other areas? Additional information:	☐	☐	☐
11.3.2.18	Are all OS&V valves in risers in an open position and sealed? Additional information:	☐	☐	☐
11.3.2.19	If elevators are contemplated for use during a fire, are the shafts sealed or equipped with pressure fans to raise positive air pressure to force out smoke? Additional information:	☐	☐	☐
11.3.2.20	If elevators are to be used for evacuation, is there a plan for an orderly method of evacuating each floor of the building?	☐	☐	☐

	Additional information:			
11.3.2.21	Are certain elevators set aside for use by the fire department? Additional information:	☐	☐	☐
11.3.2	**Training**	☐ **Not Examined**		
11.3.2.1	Have occupants received training in the use of fire extinguishers (If extinguishers are used)?	☐	☐	☐
11.3.2.1.1	What was the date of last training in the use of fire extinguishers?			
11.3.2.2	Have occupants received training in the use of fire hoses (If fire hoses are used)?	☐	☐	☐
11.3.2.2.1	What was the date of last training in the use of fire hoses?			
11.3.2.9	Are fire drills conducted regularly? Additional information:	☐	☐	☐
11.3.2.9.1	When was the last fire drill conducted?			
11.3.2.9.2	What type of drill was conducted?			

12. Closed Circuit Television Cameras (CCTV)		☐ **Not Examined**		
Number	**Question**	**Yes**	**No**	**N/A**
12.1	Is there a CCTV system in use? *If you answered "No" to this question, skip to Section 13, Electrical Power"* Additional information:	☐	☐	☐
12.2	How many cameras are there?			
12.3	Are the cameras black & white or color? ☐ Black & White ☐ Color			
12.4	Are the cameras stationary or pan/tilt/zoom? ☐ Stationary ☐ Tilt/Pan/Zoom Additional information:			
12.5	Where are the cameras located and what do they view?			

12.6	Are cameras positioned so that they cannot directly view entry of cipher lock combinations, passwords, or other sensitive information? Additional information:	☐	☐	☐
12.7	Do cameras cover ALL entrances? Additional information:	☐	☐	☐
12.8	Are all of the cameras working? Additional information:	☐	☐	☐
12.9	Are all cameras being recorded? Additional information:	☐	☐	☐
12.10	Are camera images records to a VCR Tape (Analog) or to a computer (Digital) ☐ Analog ☐ Digital Additional information:			
12.11	How many VCRs or other recording devices are there?			
12.12	What is the maintenance schedule for the recording devices?			
12.13	What is the media rotation schedule for VCR tapes?			
12.14	Who monitors and tests the system?			
12.15	Do guards or other personnel review video recordings from the CCTV? Additional information:	☐	☐	☐
12.16	How many generations of CCTV recordings are maintained?			

13. Power System		☐ **Not Examined**		
Number	**Question**	**Yes**	**No**	**N/A**
13.1	**General**	☐ **Not Examined**		
13.1.1	Have power monitoring and control devices been installed to protect against spikes, surges, dips, brownouts and power interruptions? Additional information:	☐	☐	☐
13.1.2	Is the main power source dependable? Additional information:	☐	☐	☐
13.1.3	How many power outages in the last three years?			
13.1.3.1	How long did they last?			
13.2	**Emergency Power**	☐ **Not Examined**		

13.2.1	Is there a dependable auxiliary power source for emergencies? Additional information:	☐	☐	☐
13.2.2	Is the emergency power connected to the security system? Additional information:	☐	☐	☐
13.2.3	Where is the emergency power system located?			
13.2.4	What kind is it (diesel, UPS, etc)?			
13.2.5	Is it properly secured (fence, locks, CCTV, etc) Additional information:	☐	☐	☐

14. Utility Control Points		☐ Not Examined		
Number	**Question**	**Yes**	**No**	**N/A**
14.1	Are utility and plumbing access plates and doors locked or sealed when not in use?	☐	☐	☐
14.2	Are utility controls protected from unauthorized access or tampering?	☐	☐	☐

15. Safes and Vaults		☐ Not Examined		
Number	**Question**	**Yes**	**No**	**N/A**
15.1	What type of safes/locks (Give safe description, lock description, date of last combination change, who changed combination and fire rating)	☐	☐	☐
15.2	Are safes and vaults equipped with an alarm system?	☐	☐	☐
15.3	What type of alarm systems are in the vaults and safes?	☐	☐	☐
15.4	Where does the alarm enunciate?	☐	☐	☐

16. Document Disposal and Refuse		☐ Not Examined		
Number	**Question**	**Yes**	**No**	**N/A**
16.1	Are sensitive documents separated from refuse material by the use of designated "Shred bins" at each employee's work area? Additional information:	☐	☐	☐
16.2	Are shred bins emptied into secured containers at the end of the business day? Additional information:	☐	☐	☐
16.2.1	Who empties the shred bins?	☐	☐	☐
16.3	Are secured containers emptied before they are full enough to allow sensitive material to be removed?	☐	☐	☐

	Additional information:			
16.4	Are the contents of secured containers destroyed by a reputable destruction company? Additional information:	☐	☐	☐
16.4.1	Are sensitive documents transferred to the document destruction company under supervision of an employee? Additional information:	☐	☐	☐
16.4.2	Are sensitive documents destroyed on-site by the destruction company? Additional information:			
16.4.3	If yes, is the destruction witnessed by an employee? Additional information:	☐	☐	☐
16.5	Does the destruction company issue certificates of destruction for material destroyed? Additional information:	☐	☐	☐
16.6	Does the destruction company have a regularly scheduled appointment or must they be called? Additional information:			
16.7	Are trash receptacles inside the building and dumpsters outside the building periodically inspected for presence of sensitive material? Additional information:	☐	☐	☐
16.8	How often is refuse removed from the facility?			
16.9	Is refuse removed from facility under supervision? Additional information:	☐	☐	☐
16.10	How often are dumpsters emptied?			
16.10.1	On which days are dumpsters emptied?			
16.11	Are dumpsters monitored by CCTV? Additional information:	☐	☐	☐

17. Mail Handling		☐ Not Examined		
Number	**Question**	**Yes**	**No**	**N/A**
17.1	**Incoming Mail**	☐ Not Examined		
17.1.1	Who handles incoming mail?			
17.1.2	Is all incoming mail opened by the employees designated in 17.1.1 above (including Executive correspondence)? Additional information:	☐	☐	☐
17.1.3	Are packages distributed by the employees designated in 17.1.1 above or must recipient pick up package?	☐	☐	☐

	Additional information:			
17.1.4	Have incoming mail personnel been instructed concerning letter bombs and other mail-related threats? Additional information:	☐	☐	☐
17.1.5	Is incoming mail that has not been picked up or delivered to the recipient secured during non-business hours? Additional information:	☐	☐	☐
17.2	**Outgoing Mail**	☐ **Not Examined**		
17.2.1	Who handles outgoing mail?			
17.2.2	Is outgoing mail left unsealed by the sender? Additional information?	☐	☐	☐
17.2.3	Is outgoing mail secured during non-business hours? Additional information:	☐	☐	☐

18. Record Storage		☐ **Not Examined**		
Number	**Question**	**Yes**	**No**	**N/A**
18.1	Are there fire detection devices in the records storage area? Additional information:	☐	☐	☐
18.2	Is there a fire suppression system in the records storage area? Additional information:	☐	☐	☐
18.3	Are record storage areas inaccessible to unauthorized personnel? Additional information:	☐	☐	☐
18.4	Are there checkout procedures for records in the storage area? Additional information:	☐	☐	☐
18.5	Are records and other sensitive documents stored in locked containers during non-business hours? Additional information:	☐	☐	☐
18.6	If records are viewed by non-employees, is space available for public viewing of records that is observable? Additional information:	☐	☐	☐

19. Hardware and Software Management		☐ **Not Examined**		
Number	**Question**	**Yes**	**No**	**N/A**
19.1	**Hardware**	☐ **Not Examined**		
19.1.1	Is the selection and purchase of PCs controlled?	☐	☐	☐

	Additional information:			
19.1.2	Has a specific individual been assigned to the selection, purchase and control of PCs? Additional information:	☐	☐	☐
19.1.3	Is there PC equipment accountability? Additional information:	☐	☐	☐
19.1.4	Has a physical inventory been conducted of all PC equipment? Additional information:	☐	☐	☐
19.1.5	Does the inventory log include model, manufacturer serial number, amount of RAM, warranty number, source of supply and date purchased, engraved ID number or asset tag on unit? Additional information:	☐	☐	☐
19.1.6	How often are reconciliation inventories of PC equipment conducted?			
19.1.7	Are PCs and equipment secured with hardware security devices that prevent theft of the equipment or removal of internal components? Additional information:	☐	☐	☐
19.1.8	Are PC users informed of their control and security responsibilities? Additional information:	☐	☐	☐
19.1.9	Have written policies and procedures been prepared and implemented that govern the security and control of computer equipment? Additional information:	☐	☐	☐
19.1.9.1	**If you answered "Yes" to the question above, please provide an electronic copy of these policies and procedures when this questionnaire is returned to the Auditors.**			
19.2	**Software**	☐ **Not Examined**		
19.2.1	Is the selection and purchase of software controlled? Additional information:	☐	☐	☐
19.2.2	Has a specific individual been assigned to the selection, purchase and control of software? Additional information:	☐	☐	☐
19.2.3	Is there software accountability? Additional information:	☐	☐	☐
19.2.4	Has a physical inventory been conducted of all software? Additional information:	☐	☐	☐

19.2.5	Has a licensing inventory been conducted of all software? Additional information:	☐	☐	☐
19.2.6	How often are reconciliation inventories of software conducted?			
19.2.7	Is software secured to prevent theft of media and software activation keys? Additional information:	☐	☐	☐
19.2.8	Are software users informed of their control and security responsibilities? Additional information:	☐	☐	☐
19.2.9	Have written policies and procedures been prepared and implemented that govern the security and control of software? Additional information:	☐	☐	☐
19.2.9.1	**If you answered "Yes" to the question above, please provide an electronic copy of these policies and procedures when this questionnaire is returned to the Auditors.**			
19.2.10	Is all installed software licensed? Additional information:	☐	☐	☐

20. General Security		☐ Not Examined		
Number	**Question**	**Yes**	**No**	**N/A**
20.1	Are sensitive items (documents, keys, controlled equipment, etc) secured during non-business hours? Additional information:	☐	☐	☐
20.2	Are file cabinets and other areas for storage of restricted information or sensitive items secured after non-business hours? Additional information:	☐	☐	☐
20.3	Are random, unannounced inspections conducted periodically to ensure that general security principles are in force? Additional information:	☐	☐	☐

21. Network Operations Center		☐ Not Examined		
Number	**Question**	**Yes**	**No**	**N/A**
21.1	**Construction**	☐ Not Examined		
21.1.1	Do walls of the NOC run from true floor to true ceiling? Additional information:	☐	☐	☐
21.1.2	Are there exterior-facing windows in the NOC? Additional information:	☐	☐	☐
21.1.2.1	Are they covered to prevent interior viewing?	☐	☐	☐

	Additional information:			
21.1.3	Are interior walls and doors composed of fire-resistant material? Additional information:	☐	☐	☐
21.1.4	Are there more than two access points (doors) to the NOC? Additional information:	☐	☐	☐
21.1.5	If raised flooring is not used, if the floor covered by a non-static electricity producing material (no carpeting)? Additional information:	☐	☐	☐
21.1.6	If raised flooring is used, is there at least 18" of clearance to allow for air flow and cable management? Additional information:	☐	☐	☐
21.1.7	Are fire/smoke detection devices installed above dropped ceilings in the NOC? Additional information:	☐	☐	☐
21.1.8	Are fire/smoke detection devices installed beneath raised flooring in the NOC? Additional information:	☐	☐	☐
21.1.9	Is the NOC temperature controlled and monitored to remain between 55 and 75 degrees? Additional information:	☐	☐	☐
21.1.10	Is the NOC humidity controlled and monitored to remain between 20 and 80 percent? Additional information:	☐	☐	☐
21.1.11	Are there utility pipes (water, steam, etc.) that run overhead in the NOC area? Additional information:	☐	☐	☐
21.1.11.1	If yes, is there a plan to prevent water damage to equipment in the NOC? Additional information:	☐	☐	☐
21.2	**Location**	☐	**Not Examined**	
21.2.1	Is the NOC located in the building core (not adjacent to exterior walls)?	☐	☐	☐
21.2.2	IF the NOC must be located using an exterior wall, is there a physical barrier preventing close assess to that wall?	☐	☐	☐
21.2.3	Is the NOC located on the second or higher floor of the building?	☐	☐	☐
21.2.4	Is the NOC located in a low traffic area?	☐	☐	☐
21.3	**Security**	☐	**Not Examined**	
21.3.1	Does the NOC share space with any other entity in the organization?	☐	☐	☐
21.3.2	Are there CCTV cameras in the NOC?	☐	☐	☐
21.3.3	Are these cameras positioned so that they do not record passwords, or other sensitive information being entered into	☐	☐	☐

	keyboards or other devices?			
21.3.4	Are there signs at all doors marking the room as restricted access?	☐	☐	☐
21.3.5	Is access to the NOC restricted to those personnel who require access to perform their job functions?	☐	☐	☐
21.3.6	Are visitors to the NOC required to sign in/out?	☐	☐	☐
21.3.7	Are visitors to the NOC required to sign Nondisclosure Statements?	☐	☐	☐
21.3.8	Are visitors to the NOC escorted and kept under visual observation at all times while in the NOC?	☐	☐	☐
21.3.9	Is access to the NOC restricted to emergencies only during non-business hours and holidays?	☐	☐	☐
21.3.10	Are contractors and other service engineers required to sign in/out of the NOC?	☐	☐	☐
21.3.11	Is there an equipment introduction/removal log kept for equipment in the NOC?	☐	☐	☐
21.3.12	Is the NOC inspected regularly for unauthorized equipment?	☐	☐	☐
21.4	**Housekeeping**	☐	**Not Examined**	
21.4.1	Are there signs at all doors prohibiting food, drink and smoking in the NOC?	☐	☐	☐
21.4.2	Are waste receptacles emptied outside of the NOC to reduce dust?	☐	☐	☐
21.4.3	Are all papers containing sensitive information about the NOC or its' operations shredded or sent to a document destruction company?	☐	☐	☐
21.4.4	If documents are shredded, are they shredded OUT SIDE of the NOC?	☐	☐	☐
21.4.5	Are printers located in a separate area (room) from computer equipment?	☐	☐	☐
21.4.6	If the cleaning staff access the NOC, are they escorted and kept under visual observation at all times?	☐	☐	☐
21.5	**Utilities**	☐	**Not Examined**	
21.5.1	Does the NOC have a backup (emergency) power supply?	☐	☐	☐
21.5.1.1	Is the run time of the emergency power supply sufficient?	☐	☐	☐
21.5.2	Does the NOC had access to redundant access to power, cooling and networks?	☐	☐	☐
21.5.3	Does the NOC have redundant cooling capability?	☐	☐	☐
21.5.4	Does the NOC have sufficient UPS capability to allow equipment to run long enough to switch over to local generator power?	☐	☐	☐
21.5.5	If there is no local generator, dos the NOC possess sufficient UPS power to run for at least 24 hours?	☐	☐	☐
21.5.6	If diesel generators are used, is there at least a 24 hour fuel supply on hand?	☐	☐	☐
21.6	**Safety**	☐	**Not Examined**	
21.6.1	Is there a total flooding agent (Halon, FM 200, etc) fire suppression solution in place at the NOC?	☐	☐	☐
21.6.1.1	When was the last time the system was tested/inspected?	☐	☐	☐

21.6.2	Are there fire extinguishers of the proper type in the NOC to handle small fires?	☐	☐	☐
21.6.3	Are there emergency power off switches located inside the NOC?	☐	☐	☐
21.6.4	If dropped ceilings are used in the NOC, are fire/smoke detection devices installed above the dropped ceilings?	☐	☐	☐

22. Data Center		☐ Not Examined		
Number	**Question**	**Yes**	**No**	**N/A**
22.1	**Site Location**	☐ Not Examined		
22.1.1	**Natural Disaster Risks**	☐ Not Examined		
22.1.1.1	Is the data center located in an area where risk of natural disasters are acceptable (forest fires, lightning storms, tornadoes, hurricanes, earthquakes, floods, etc.)? Additional information:	☐	☐	☐
22.1.2	**Man-Made Disaster Risks**	☐ Not Examined		
22.1.2.1	Is the data center located in an area where risk of man-made disasters is acceptable (Not located near airports, prisons, freeways, stadiums, refineries, pipelines, tank farms, parade routes, etc.)? Additional information:	☐	☐	☐
22.1.3	**Infrastructure**	☐ Not Examined		
22.1.3.1	Does the electrical utility servicing the data center have a 99.9% or better reliability of service? Additional information:	☐	☐	☐
22.1.3.2	Is electricity received from two or more separate substations attached to two separate power plants? Additional information:	☐	☐	☐
22.1.3.3	Is water available from more than one source? Additional information:	☐	☐	☐
22.1.3.4.1	Is well water one of the sources available? Additional information:	☐	☐	☐
22.1.3.5	Is there connectivity to more than one access provider? Additional information:	☐	☐	☐
22.1.4	**Sole Purpose**	☐ Not Examined		

22.1.4.1	Does the data center share the same building with other offices? Additional information:	☐	☐	☐
22.1.4.1.1	Are any of these offices NOT owned by the organization? Additional information:	☐	☐	☐
22.1.4.1.2	Does the data center share any walls with these other offices?? Additional information:	☐	☐	☐
22.2	**Site Perimeter**	☐ **Not Examined**		
22.2.1	**Perimeter**	☐ **Not Examined**		
22.2.1.1	Is there a fence around the facility? Additional information:	☐	☐	☐
22.2.1.2	Is the fence at least 20 feet from the building on all sides? Additional information:	☐	☐	☐
22.2.1.3	Is there a guard kiosk at each perimeter access point? Additional information:	☐	☐	☐
22.2.1.4	Is there an automatic authentication method for data center employees? Additional information:	☐	☐	☐
22.2.1.4.1	Is the reader or other device accessible from the vehicle entering the facility? Additional information:	☐	☐	☐
22.2.1.5	Is the area around the facility well lit? Additional information:	☐	☐	☐
22.2.1.6	Is the area around the facility free from obstructions blocking CCTV cameras and guard patrols? Additional information:	☐	☐	☐
22.2.1.7	Are parking spaces a minimum of 25 feet from the building? Additional information:	☐	☐	☐
22.2.1.8	Are there any indications that the building is a data center or that the organization owns the building (signs, etc.) Additional information:	☐	☐	☐
22.2.2	**Surveillance**	☐ **Not Examined**		
22.2.2.1	Are there CCTV cameras outside the building monitoring parking lots and neighboring property? Additional information:	☐	☐	☐
22.2.2.2	Do vehicles belonging to data center employees, contractors, guards and cleaning crew have permits?	☐	☐	☐

	Additional information:			
22.2.2.3	Are service engineers and visitor vehicles required to park in visitor parking areas? Additional information:	☐	☐	☐
22.2.2.4	Are vehicles that do not fit these descriptions towed? Additional information:	☐	☐	☐
22.2.3	**Computer Room Location and Outside Windows**	☐ **Not Examined**		
22.2.3.1	Do computer room windows face the exterior of the building? Additional information:	☐	☐	☐
22.2.3.2	Is the computer room located within the interior of the building (The computer room has no building exterior walls)? Additional information:	☐	☐	☐
22.2.3.3	If the computer room does have a building exterior wall, is there a physical barrier preventing close access to that wall? Additional information:	☐	☐	☐
22.2.4	**Access Points**	☐ **Not Examined**		
22.2.4.1	Do loading docks and all exterior doors have an automatic authentication method? Additional information:	☐	☐	☐
22.2.4.2	Does each entrance (except for the loading dock) have a mantrap? Additional information:	☐	☐	☐
22.2.4.3	Does each entrance have a security kiosk ? Additional information:	☐	☐	☐
22.2.4.4	Does each entrance have physical barriers ? Additional information:	☐	☐	☐
22.2.4.5	Does each entrance have CCTV cameras ? Additional information:	☐	☐	☐
22.2.4.6	Are engineers and cleaning crew required to produce picture ID in exchange for an access badge? ? Additional information:	☐	☐	☐
22.2.4.7	Is a log of equipment introduction/removal from the facility kept at each guard station that details what equipment was introduced/removed, when and by whom? Additional information:	☐	☐	☐
22.2.4.8	Do security kiosks have access to the badge database to verify entrant's identity? Additional information:	☐	☐	☐

22.2.4.9	Does the badge database in use contain the employee's picture? Additional information:	☐	☐	☐
22.2.4.10	Do badges include the employee's picture? Additional information:	☐	☐	☐
22.3	**Computer Rooms**	☐ **Not Examined**		
22.3.1	**Access**	☐ **Not Examined**		
22.3.1.1	Are door signs posted marking the computer room as a restricted access area and that food, drink and smoking are prohibited? Additional information:	☐	☐	☐
22.3.1.2	Is there an automatic authentication method at all entrances? Additional information:	☐	☐	☐
22.3.1.3	Are doors fireproof? Additional information:	☐	☐	☐
22.3.1.4	Are there only two entrances to the computer room? Additional information:	☐	☐	☐
22.3.1.5	Is access restricted to only those personnel who need to maintain the servers and infrastructure? Additional information:	☐	☐	☐
22.3.1.6	Is access restricted to "emergencies only" during holiday periods? Additional information:	☐	☐	☐
22.3.1.7	Are service engineers required to obtain a computer room access badge from the NOC? Additional information:	☐	☐	☐
22.3.2	**Computer Room Infrastructure**	☐ **Not Examined**		
22.3.2.1	Is the computer room monitored by CCTV? Additional information:	☐	☐	☐
22.3.2.2	Does the computer room have access to redundant power, cooling and network infrastructures? Additional information:	☐	☐	☐
22.3.2.3	Is raised flooring at least 18" high to allow for air flow and cable management? Additional information:	☐	☐	☐
22.3.2.4	Is the computer room equipped with air filtration devices? Additional information:	☐	☐	☐

22.3.2.5	Does the computer room have high ceilings to allow for heat dispersal? Additional information:	☐	☐	☐
22.3.3	**Computer Room Environment**	☐ **Not Examined**		
22.3.3.1	Is the computer room temperature kept between 55 and 75 degrees Fahrenheit? Additional information:	☐	☐	☐
22.3.3.2	Is the computer room humidity kept between 20 and 80 percent? Additional information:	☐	☐	☐
22.3.3.3	Do environmental sensors record temperature and humidity readings? Additional information:	☐	☐	☐
22.3.3.4	Are sensor readings monitored and trend analysis conducted on the readings? Additional information:	☐	☐	☐
22.3.4	**Fire Prevention**	☐ **Not Examined**		
22.3.4.1	Is a total flooding agent (FM-200 or equivalent) solution in place in the computer room? Additional information:	☐	☐	☐
22.3.4.2	Are fire extinguishers located in each computer room? Additional information:	☐	☐	☐
22.3.4.3	Are emergency power off switches installed in the computer room? Additional information:	☐	☐	☐
22.3.4.4	Are there respirators in each computer room? Additional information:	☐	☐	☐
22.3.4.5	Are other than wet pipe sprinkler systems installed in the computer room? Additional information:	☐	☐	☐
22.3.5	**Shared Space**	☐ **Not Examined**		
22.3.5.1	Is there a clause in the lease agreement stating that competitors of the business may not have equipment located in the same computer room? Additional information:	☐	☐	☐
22.3.5.2	Are lists of clients using the same shared computer room monitored to ensure compliance with 22.3.5.1 above? Additional information:	☐	☐	☐
22.3.5.3	Is equipment in the shared computer room in a locked cabinet? Additional information:	☐	☐	☐

22.4	**Facilities**	☐ Not Examined			
22.4.1	**Cooling Towers**	☐ Not Examined			
22.4.1.1	Does the Data Center have redundant cooling towers? Additional information: _____	☐	☐	☐	
22.4.1.2	Are redundant cooling towers isolated from the Data Center parking lot? Additional information: _____	☐	☐	☐	
22.4.2	**Power**	☐ Not Examined			
22.4.2.1	Is there at least battery backup power on site?	☐	☐	☐	
22.4.2.2	Is the battery backup power sufficient to switch over to diesel generators? Additional information: _____	☐	☐	☐	
22.4.2.3	If there is no diesel backup, is there sufficient backup battery power to last for 24 hours? Additional information: _____	☐	☐	☐	
22.4.2.4	If there is diesel generator backups, is there at least 24 hours of fuel on site? Additional information: _____	☐	☐	☐	
22.4.2.5	Is there a contract in place to provide up to a week of fuel for the facility? Additional information: _____	☐	☐	☐	
22.4.3	**Trash**	☐ Not Examined			
22.4.3.1	Are all papers containing sensitive information shredded onsite or sent to a document destruction company? Additional information: _____	☐	☐	☐	
22.4.3.2	Are dumpsters monitored by CCTV? Additional information: _____	☐	☐	☐	
22.4.4	**Network Operations Center**	☐ Not Examined			
22.4.4.1	Does the NOC have fire, power, weather, temperature and humidity monitoring systems in place? Additional information: _____	☐	☐	☐	
22.4.4.2	Does the NOC have redundant communications systems in place? Additional information: _____	☐	☐	☐	
22.4.4.3	Is the NOC manned 24 hours each day? Additional information: _____	☐	☐	☐	
22.4.4.4	Does the NOC monitor news channels for events that may effect the health of the Data Center? Additional information: _____	☐	☐	☐	

23. Consolidated Request List
