Router Administration and Configuration

INSTRUCTIONS:
Please respond to each question by placing an "X" in the "Yes", "No" or "N/A" column or by providing the information requested. Use the "Tab" key to move between items. Use the "Additional information" field for explanatory comments, if necessary. If an item does not have an "Additional information" field, and you need to explain your answer, use the space at the end of the questionnaire and reference the item being explained, e.g. RE: Item 1.2-This is the explanation.

Questionnaire completed by: _____

Contact number for follow-up questions: _____

Date Completed: _____

1. Policies and Procedures

Number	Question	Yes	No	N/A
1.1	Is there a written router configuration policy for the organization? *If you answered "No" to this question, skip to Section 2, Router Administration* Additional information:	☐	☐	☐
1.2	Are there different router configuration policies or procedures for different areas of your network? (for example: you have a different router configuration policy or procedure in your branch offices than you use on the LAN) Additional information:	☐	☐	☐
If there are different policies or procedures for different areas of the network, use the "Additional information" area to explain differences in each area where different policies or procedures exist.				
1.3	Have all router configuration policies been approved by the Board of Directors or by management? Additional information:	☐	☐	☐
1.4	Are all router configuration policies reviewed on a regular basis and updated as the environment changes? Additional information:	☐	☐	☐
1.5	Do router configuration policies and procedures include the following elements:			
1.5.1	Purpose	☐	☐	☐
1.5.2	Scope	☐	☐	☐

Number	Question	Yes	No	N/A
1.5.3	Periodic revision requirement	☐	☐	☐
1.5.4	Definitions (If required)	☐	☐	☐
1.5.5	Enforcement provisions	☐	☐	☐
1.5.6	The way in which router software or appliances should be configured	☐	☐	☐
1.5.7	A list of personnel (by job position) authorized to change router configurations	☐	☐	☐
1.5.8	Backup of router configurations	☐	☐	☐
1.5.9	Off-site storage of router configurations	☐	☐	☐
1.5.10	Procedures for updating router IOS	☐	☐	☐
1.5.11	Method of storing passwords in router configurations	☐	☐	☐
1.5.12	Router logging and monitoring requirements	☐	☐	☐
1.5.13	Network administrator/Help desk response process for attacks	☐	☐	☐

2. Router Administration

Number	Question	Yes	No	N/A
2.1	Are all external router connections reviewed and approved before being placed into operation? Additional information: _____	☐	☐	☐
2.2	Does any 3rd party have access to your routers? Additional information: _____	☐	☐	☐
2.2.1	If so how are those connections controlled? _____			
2.3	Describe the method(s) used to limit access to all router administrative interfaces: _____			
2.4	Are all management sessions to all router administrative interfaces encrypted? Additional information: _____	☐	☐	☐
2.5	Who is authorized to change router configurations? If different persons or job titles are authorized to change only specific router configurations, list each person or group authorized to change configurations for each router: _____			
2.5.1	Does each user authorized to change router configurations have a unique ID and Password to access each router? Additional information: _____	☐	☐	☐
2.6	Describe how passwords are stored in the router configurations. If more than one method is used, describe each method used and the specific router on which that method is used: _____			

Number	Question	Yes	No	N/A
2.7	Describe the process used to upgrade a router IOS. If procedures differ, describe each difference:			
2.8	Are router logs captured? *If you answered "No" to this question, skip to Section 3, Router Configuration* Additional information:	☐	☐	☐
If you answered "Yes" to question 2.8 above, please provide an electronic copy of the router logs for the last 7 days. If your organization uses multiple internal and external routers, provide an electronic copy of the last 7 days of router logs for all external and one internal router.				
2.9.1	Specifically describe WHERE router logs are stored and how the logs are protected from unauthorized access and modification:			
2.9.2	Are router logs regularly reviewed? Additional information: *If you answered "No" to this question, skip to Section 3, Router Configuration.*	☐	☐	☐
2.9.3	How often are the logs reviewed?			
2.9.4	Who reviews the router logs:			

3. Router Configuration

Number	Question	Yes	No	N/A
3.1	Have default passwords been changed on all routers? Additional information:	☐	☐	☐
3.2	Does each router have a unique password, or is there one password for all routers? Additional information:	☐	☐	☐
3.3	Are routers configured with type 5 password encryption? Additional information:	☐	☐	☐
3.4	Are router passwords stored in an encrypted form in the configuration? Additional information:	☐	☐	☐
3.5	Does your router require a password for access to the diagnostics port or AUX port? Additional information:	☐	☐	☐
3.6	Are changes to router configurations tracked? *If you answered "No" to this question, ski to question 3.7* Additional information:	☐	☐	☐

Number	Question	Yes	No	N/A
3.6.1	Describe the procedure used to track changes to router configurations:			
3.7	Are all router configurations backed up? Additional information:	☐	☐	☐
3.8	Are all router configurations stored securely in an off-site location? Additional information:	☐	☐	☐
3.9	Are the AUX ports in your sites routers disabled? Additional information:	☐	☐	☐
3.10	Are your sites routers console ports configured for a time out? Additional information:	☐	☐	☐
3.11	Are unused interfaces in your sites routers disabled? Additional information:	☐	☐	☐
3.12	Are your sites routers configured to only allow authorized IP address to establish management connections? Additional information:	☐	☐	☐
3.13	Is your sites router management connections limited to SSH? Additional information:	☐	☐	☐
3.14	Are your sites routers configured to log all access attempts? Additional information:	☐	☐	☐
3.15	Do you have the latest IOS version deployed on all routers? Additional information:	☐	☐	☐
Please provide an electronic copy of the inventory of all routers at your site when you return this questionnaire to the auditors. The inventory list should include vendor, model, version of installed IOS and whether the router is internal or external.				

3. Consolidated Request List

Number	Requested Item	Provided	Not Provided	Reason not provided
6.1	Electronic copy of any/all router administration and configuration policies, procedures or programs in effect	☐	☐	
6.2	Inventory of all routers including vendor, model, version of IOS installed and whether the router is external or internal	☐	☐	
6.3	Electronic copy of the router logs for the last 7 days. If your organization uses multiple internal and external routers, provide an electronic copy of the last 7 days of router logs for all external and one internal router.	☐	☐	

7. Additional Information for the Auditor on Router Administration and Configuration
