Server Administration and Configuration: General Information

INSTRUCTIONS:
Please respond to each question by placing an "X" in the "Yes", "No" or "N/A" column or by providing the information requested. Use the "Tab" key to move between items. Use the "Additional information" field for explanatory comments, if necessary. If an item does not have an "Additional information" field, and you need to explain your answer, use the space at the end of the questionnaire and reference the item being explained, e.g. RE: Item 1.2-This is the explanation.

Questionnaire completed by: _____

Contact number for follow-up questions: _____

Date Completed: _____

1. Policies and Procedures

Number	Question	Yes	No	N/A
1.1	Is there a written server administration and configuration policy for the organization? *If you answered "No" to this question, skip to Section 2, Server Hardware Administration and Configuration* Additional information: _____	☐	☐	☐
1.2	Does the written server administration and configuration policy address all operating systems used by the organization? Additional information: _____	☐	☐	☐
1.3	Are there different server administration and configuration policies or procedures for different areas of your network? (for example: you have a different server administration or configuration policy or procedure in your branch offices than you use on the LAN) Additional information: _____	☐	☐	☐
If there are different policies or procedures for different areas of the network, use the "Additional information" area to explain differences in each area where different policies or procedures exist. **Please provide an electronic copy of all server policies and procedures when you return this questionnaire to the auditors.**				

Number	Question	Yes	No	N/A
1.4	Has the server administration and configuration policy been approved by the Board of Directors or by management? *If the format of the server administration and configuration policy does not include an approval page with Board of Director or management signatures, please furnish a copy of the Board minutes in which the server administration and configuration policy was approved.* Additional information:	☐	☐	☐
1.5	Has the policy been implemented? Additional information:	☐	☐	☐
1.6	Are the contents of the policy enforceable? Additional information:	☐	☐	☐
1.7	Is the server administration and configuration policy reviewed on a regular basis and updated as the environment changes? *Please provide evidence that the policy is regularly updated. This evidence may be in the form of a change or history log for the document or previous versions of the document..* Additional information:	☐	☐	☐
1.7.1	When was the last time the server administration and configuration policy was reviewed or updated?			
1.8	Do server administration and configuration policy and procedures include the following elements:			
1.8.1	Purpose	☐	☐	☐
1.8.2	Scope	☐	☐	☐
1.8.3	Periodic revision requirement	☐	☐	☐
1.8.4	Definitions (If required)	☐	☐	☐
1.8.5	Enforcement provisions	☐	☐	☐
1.8.6	Revision history	☐	☐	☐
1.8.7	Guidance on installation of Server-based Operating Systems	☐	☐	☐
1.8.8	Guidance on configuration of Server-based Operating Systems	☐	☐	☐
1.8.9	Guidance on recovery of Server-based Operating Systems	☐	☐	☐
1.8.10	Guidance on installation of Server-based Applications	☐	☐	☐
1.8.11	Guidance on configuration of Server-based Applications	☐	☐	☐
1.8.12	Guidance on recovery of Server-based Applications	☐	☐	☐
1.8.13	Network Connections	☐	☐	☐

Number	Question	Yes	No	N/A
1.8.14	Access Logging	☐	☐	☐
1.8.15	Remote Access to Servers	☐	☐	☐

2. Server Hardware

Number	Question	Yes	No	N/A
2.1	Are all servers located in a physically secure environment? Additional information:	☐	☐	☐
2.2	Is physical server access restricted to only those employees who have a valid need to be in physical contact with the servers? Additional information:	☐	☐	☐
2.3	Is a physical inventory maintained of all servers? **If you answered "Yes" to this question, please provide an electronic copy of the inventory log to the auditors when you return this questionnaire.** Additional information:	☐	☐	☐
2.3.1	What information is contained in the inventory?			
2.3.2	How often are physical inventories of servers conducted?			
2.3.3	Are inventories updated when machine configurations change (i.e., new hard drives or RAM added) Additional information:	☐	☐	☐
2.4	Are servers secured with hardware security devices that prevent theft of the equipment or removal of internal components? Additional information:	☐	☐	☐
2.5	Do servers require a BIOS password for boot? Additional information:	☐	☐	☐
2.6	Is the BIOS boot order set to boot from the hard drive first? Additional information:	☐	☐	☐
2.7	Are input peripherals disabled when not in use (floppy drives, CD/DVDs, USB ports, etc.? Additional information:	☐	☐	☐

3. Server Operating Systems - Installation

Number	Question	Yes	No	N/A
3.1	**General**			
3.1.1	Are servers disconnected from the network before operating systems are installed or reloaded, even in non-production (testing) networks? Additional information:	☐	☐	☐
3.1.2	Are all server operating systems properly licensed (including Client Access Licenses [CALs]) or other connector licensing? Additional information:	☐	☐	☐
3.1.3	Are all installed operating systems still supported by their vendors? Additional information:	☐	☐	☐
3.1.4	Have all system administrators successfully completed vendor provided (or equivalent) training for administration of the operating systems used in the organization? Additional information:	☐	☐	☐
3.2	**New Hardware**			
3.2.1	When new servers are purchased with an operating system installed by the manufacturer, is the operating system reloaded from "known safe" media to ensure that the system is initially free from software-based threats? Additional information:	☐	☐	☐
3.2.2	When new servers are purchased from the manufacturer, are they scanned for viruses before being placed on the production network? Additional information:	☐	☐	☐
3.3	**Acquired (Transferred) Hardware**			
3.3.1	When existing servers come under the control of the organization, is the operating system reloaded from "known safe" media to ensure that the system is initially free from software-based threats? Additional information:	☐	☐	☐
3.3.2	When existing servers come under the control of the organization, are they scanned for viruses before being placed on any network? Additional information:	☐	☐	☐

4. Server Operating Systems - Maintenance

Number	Question	Yes	No	N/A
4.1	**Patches**			
4.1.1	Have all vendor recommended or required hotfixes and service packs been applied to all servers? Additional information:	☐	☐	☐
4.1.1.1	Are there any servers on which one or more operating system or application patches or hotfixes CANNOT be installed due to incompatible hardware, software, function, etc.? Additional information:	☐	☐	☐
4.1.2	Is there an up-to-date inventory of patches applied and patches available but not installed? **If you answer "Yes" to this question, please provide an electronic copy of the patch inventory to the auditors when you return this questionnaire.** Additional information:	☐	☐	☐
4.1.3	Is there a procedure to track patches that have not been applied to specific systems and the rationale for not having applied the patch? Additional information:	☐	☐	☐
4.1.4	Is there a procedure for re-inventorying patches to ensure they have not been overwritten? Additional information:	☐	☐	☐
4.2	**Trouble Call Trend Analysis**			
4.2.1	Does the organization use a tracking system for maintenance requests? Additional information:	☐	☐	☐
4.2.2	If a commercial tracking system is used, please give the application name and version number:			
4.3	**Hardware and Software Disposal**			
4.3.1	Describe the procedure used to prepare servers and server-based software for disposal or provide a copy of the organization's hardware and software destruction policy:	☐	☐	☐

5. Remote Access

Number	Question	Yes	No	N/A
5.1	Are any servers configured for remote access? Additional information:	☐	☐	☐

Number	Question	Yes	No	N/A
5.2	Has the installation of remote access software been approved? Additional information:	☐	☐	☐
5.3	What remote access software is used?			
5.4	Is the remote access software configured in a secure manner?	☐	☐	☐
5.4.1	Describe the security configuration of the remote access software?			
5.5	Is remote access allowed only through a VPN? Additional information:	☐	☐	☐
5.6	Are there any security requirements that must be in place on the remote computer before remote access is allowed? Describe those requirements:	☐	☐	☐

6. Server Operating Systems - Inventory

Place an "X" in the box for each operating system used by the organization. Include all operating systems used, even if they are used only for testing or evaluation. There should be a questionnaire for each operating system identified below. If you are missing questionnaires for any operating system, please contact a member of the auditing team immediately.

6.1	**Linux/Unix-based Operating Systems**
6.1.1	☐ Linux/Unix (Specify distributions and versions in use): *If you placed an "X" in the box above, please complete the questionnaire "Server Administration and Configuration: Linux/Unix-based Systems"* Additional information:
6.2	**Novell-based Operating Systems**
6.2.1	☐ Novell (Specify versions in use): *If you placed an "X" in the box above, please complete the questionnaire "Server Administration and Configuration: Novell-based Systems"* Additional information:
6.3	**Windows-based Operating Systems**
6.3.1	☐ Windows 2012/8.1 *If you placed an "X" in the box above, please complete the questionnaire "Server Administration and Configuration: Windows based Systems"* Additional information:

	☐ Windows 2000 Server ☐ Windows 2000 Enterprise Server ☐ Windows 2000 Datacenter Server *If you placed an "X" in any of the boxes above, please complete the questionnaire "Server Administration and Configuration: Windows 2000-based Systems"* Additional information:
	☐ Windows 2003 Server *If you placed an "X" in the box above, please complete the questionnaire "Server Administration and Configuration: Windows Server 2003-based Systems"* Additional information:
6.4	**Other Operating Systems**
6.4.1	☐ Other (Specify vendor and versions in use): Additional information:

7. Consolidated Request List

Number	Requested Item (Item Source Question)	Provided	Not Provided	Reason not provided
7.1	Electronic copy of any/all server configuration policies, procedures or programs in effect (1.3)	☐	☐	
7.2	Copy of Board of Directors approval for all server administration and configuration policies, procedures or programs. If the format of the server administration and configuration policy does not include an approval page with Board of Director signatures, please furnish a copy of the Board minutes in which the server administration and configuration policy was approved. (1.4)	☐	☐	
7.3	Evidence that the server administration and configuration policy is regularly updated. This evidence may be in the form of a change or history log for the document or previous versions of the document. (1.7)	☐	☐	
7.4	Electronic copy of the server inventory log (2.3)	☐	☐	
7.5	Electronic copy of server patch inventory (4.1.2)	☐	☐	
7.6	Electronic copy of the organization's hardware and software destruction policy (4.3.1)	☐	☐	

8. Additional Information for the Auditor on Server Administration and Configuration: General Information
