Server Administration and Configuration: Windows 2012-based systems

INSTRUCTIONS:

Please respond to each question by placing an "X" in the "Yes", "No" or "N/A" column or by providing the information requested. Use the "Tab" key to move between items. Use the "Additional information" field for explanatory comments, if necessary. If an item does not have an "Additional information" field, and you need to explain your answer, use the space at the end of the questionnaire and reference the item being explained, e.g. RE: Item 1.2-This is the explanation.

Source: This document is based on Level 1 requirements for Windows 2012 from the Center for Internet Security (CIS).

The CIS Scoring Tool is currently unavailable from CIS. When it becomes available, you may execute the tool on your Windows 2012-based systems and provide electronic copies of the output to the Auditors instead of completing this questionnaire manually.

Questionnaire completed by: _____ Contact number for follow-up questions: _____ Date Completed: _____

1. Service Packs and Hotfixes

Number	Question	Yes	No	N/A
1.1	Has the latest service pack been applied to all Windows 2012 servers? *This will be verified when internal vulnerability scans are conducted.* Additional information: _____	☐	☐	☐
1.2	Have all vendor recommended Hotfix roll-ups been applied to all Windows 2012 servers? *This will be verified when internal vulnerability scans are conducted.* Additional information: _____	☐	☐	☐

2. Auditing and Account Policies

Number	Question	Yes	No	N/A
2.1	**Auditing Policies**			
2.1.1	Is an audit policy configured on all Windows 2012 servers? Additional information: _____	☐	☐	☐
2.1.2	What audit policy parameters have been configured for all Windows 2012 servers in the following areas? **Item** / **Success** / **Failure** Logon and Logoff ☐ ☐ File and Object Access ☐ ☐ Use of User Rights ☐ ☐ User and Group Management ☐ ☐ Security Policy Changes ☐ ☐ Restart, Shutdown and System ☐ ☐ Process Tracking ☐ ☐ Additional information: _____			
2.2	**Account Policies**			
2.2.1	Is an account policy configured on all Windows 2012 servers? Additional information: _____	☐	☐	☐

<table>
<tr><th>Number</th><th>Question</th><th>Yes</th><th>No</th><th>N/A</th></tr>
<tr><td>2.2.2</td><td>What account policy parameters have been configured for all Windows 2012 servers in the following areas?
<table>
<tr><th>Item</th><th>Parameter</th></tr>
<tr><td>Password Policy</td><td></td></tr>
<tr><td>Maximum Password Age</td><td></td></tr>
<tr><td>Minimum Password Age</td><td></td></tr>
<tr><td>Minimum Password Length</td><td></td></tr>
<tr><td>Password Uniqueness</td><td></td></tr>
<tr><td>Account Lockout Policy</td><td></td></tr>
<tr><td>Lockout after</td><td></td></tr>
<tr><td>Reset count after</td><td></td></tr>
<tr><td>Lockout Duration</td><td></td></tr>
<tr><td>Password Complexity</td><td></td></tr>
</table>
Additional information: _____</td><td></td><td></td><td></td></tr>
<tr><td>2.2.3</td><td>Please provide a “DumpSec” “Dump Policies” report for all Windows 2012 servers. If you do not have “DumpSec”, it can be downloaded from www.somarsoft.com.
Additional information: _____</td><td></td><td></td><td></td></tr>
<tr><td>2.3</td><td>Security Event Log</td><td></td><td></td><td></td></tr>
<tr><td>2.3.1</td><td>Is the Security Event Log on all Windows 2012 servers reviewed regularly?
Additional information: _____</td><td>☐</td><td>☐</td><td>☐</td></tr>
</table>

3. Security Settings

Number	Question	Yes	No	N/A
3.1	Is the Null user restricted from listing account information? **Please provide an electronic copy of a screenshot showing the configuration of HKEY_LOCAL_MACHINE\SYSTEM\CurrentControlSet\Control\Lsa\ for all Windows 2012 servers**. *If you answered "No" to this question, and there a mission critical reason why the Null user has not been restricted, use the Additional information box below to explain the mission critical reason.* Additional information: _____	☐	☐	☐
3.2	Are Windows 2012 servers configured not to allow the server to be shut down without having to log on? **Please provide an electronic copy of a screenshot showing the configuration of HKEY_LOCAL_MACHINE\Software\Microsoft\WindowsNT\CurrentVersion\Winlogon for all Windows 2012 servers** *If you answered "No" to this question, and there a mission critical reason why the servers are configured to allow system to be shut down without having to log on, use the Additional information box below to explain the mission critical reason.* Additional information: _____	☐	☐	☐
3.3	Have all Windows 2012 servers been configured to disable automatic logon? **The screenshot requested in 3.2 above will contain sufficient information to verify this test.** *If you answered "No" to this question, and there a mission critical reason why the servers are configured to allow automatic logon, use the Additional information box below to explain the mission critical reason* Additional information: _____	☐	☐	☐
3.4	Have all Windows 2012 servers been configured to use a LAN Manager Authentication level of at least 2? **The screenshot requested in 3.1 above will contain sufficient information to verify this test.** *If you answered "No" to this question, and there a mission critical reason why the LAN Manager Authentication level is configured less than 2, use the Additional information box below to explain the mission critical reason* Additional information: _____	☐	☐	☐
3.5	Have all Windows 2012 servers been configured with Message Text for Users Attempting to Log On? **The screenshot requested in 3..2 above will contain sufficient information to verify this test.** *If you answered "No" to this question, and there a mission critical reason why a message for users attempting to log on has not been configured, use the Additional information box below to explain the mission critical reason* Additional information: _____	☐	☐	☐

Number	Question	Yes	No	N/A
3.6	Have all Windows 2012 servers been configured to prevent users from installing printer drivers? **Please provide an electronic copy of a screenshot showing the configuration of HKEY_LOCAL_MACHINE\SYSTEM\CurrentControlSet\Control\Print\Providers\LanManPrintServices\Servers\ for all Windows 2012 servers** *If you answered "No" to this question, and there a mission critical reason why users are not prohibited from installing printer drivers, use the Additional information box below to explain the mission critical reason.* Additional information:	☐	☐	☐
3.7	Has the local Administrator account been renamed on all Windows 2012 servers? **Please provide an electronic copy of a screenshot showing that the Administrator Account has been renamed in User Manager or User Manager for Domains for all Windows 2012 servers** *If you answered "No" to this question, and there a mission critical reason why the Administrator account has not been renamed, use the Additional information box below to explain the mission critical reason.* Additional information:	☐	☐	☐
3.8	Has the local Guest account been renamed on all Windows 2012 servers? **Please provide an electronic copy of a screenshot showing that the Guest Account has been renamed in User Manager or User Manager for Domains for all Windows 2012 servers** *If you answered "No" to this question, and there a mission critical reason why the Guest account has not been renamed, use the Additional information box below to explain the mission critical reason.* Additional information:	☐	☐	☐
3.9	Have all Windows 2012 servers been configured to restrict CD-ROM access to locally logged-on users only? **The screenshot requested in 3.2 above will contain sufficient information to verify this test.** *If you answered "No" to this question, and there a mission critical reason why access to the CD-ROM has not been restricted to the locally logged-on user, use the Additional information box below to explain the mission critical reason.* Additional information:	☐	☐	☐
3.10	Have all Windows 2012 servers been configured to restrict floppy access to locally logged-on users only? **The screenshot requested in 3.2 above will contain sufficient information to verify this test.** *If you answered "No" to this question, and there a mission critical reason why access to the floppy has not been restricted to the locally logged-on user, use the Additional information box below to explain the mission critical reason.* Additional information:	☐	☐	☐

4. Available Services and Other System Requirements

Number	Question	Yes	No	N/A
4.1	**Available Services**			
4.1.1	Have non-essential services been disabled on all Windows 2012 servers? **Please provide a "DumpSec" "Dump Services" report for all Windows 2012 servers**. If you do not have "DumpSec", it can be downloaded from www.somarsoft.com. *If you answered "No" to this question, and there a mission critical reason why normally disabled services are running, use the Additional information box below to explain the mission critical reason.* Additional information: _____	☐	☐	☐
4.2	**Other System Requirements**			
4.2.1	Are all disk volumes on all Windows 2012 servers using the NTFS file system? **Please provide a "DumpSec" "Dump Services" report for all Windows 2012 servers**. If you do not have "DumpSec", it can be downloaded from www.somarsoft.com. *If you answered "No" to this question, and there a mission critical reason why one or more disk volumes are not configured with NTFS, use the Additional information box below to explain the mission critical reason.* Additional information: _____	☐	☐	☐

6. Consolidated Request List

Number	Requested Item	Provided	Not Provided	Reason not provided
6.1	"DumpSec" "Dump Policies" report for all Windows 2012 servers.	☐	☐	
6.2	Electronic copy of a screenshot showing the configuration of HKEY_LOCAL_MACHINE\SYSTEM\CurrentControlSet\Control\Lsa\ for all Windows 2012 servers	☐	☐	
6.3	Electronic copy of a screenshot showing the configuration of HKEY_LOCAL_MACHINE\Software\Microsoft\WindowsNT\CurrentVersion\Winlogon for all Windows 2012 servers	☐	☐	
6.4	Electronic copy of a screenshot showing the configuration of HKEY_LOCAL_MACHINE\SYSTEM\CurrentControlSet\Control\Print\Providers\ LanManPrintServices\Servers\ for all Windows 2012 servers	☐	☐	

Number	Requested Item	Provided	Not Provided	Reason not provided
6.5	Electronic copy of a screenshot showing that the Administrator Account has been renamed in User Manager or User Manager for Domains for all Windows 2012 servers	☐	☐	
6.6	Electronic copy of a screenshot showing that the Guest Account has been renamed in User Manager or User Manager for Domains for all Windows 2012 servers	☐	☐	
6.7	"DumpSec" "Dump Services" report for all Windows 2012 servers	☐	☐	
6.8	"DumpSec" "Dump Services" report for all Windows 2012 servers.	☐	☐	

7. Additional Information for the Auditor on Windows 2012-based Systems
